MOJAVE ROSE

Patent No. 1176

All-America Rose Selection

WINNER FOR 1954

Welcome to

WINSEL GIBBS

The Pioneer Nursery of Southern California

— Since 1887 —

We invite you to browse through our lath houses filled with a wide variety of shade-loving plants, our glasshouse of beautiful and unusual foliage specimens, and the vast areas devoted to rose gardens and flowering shrubs. Our 67 years in the nursery business have enabled us to anticipate your garden needs. Here you will find flower and vegetable seeds, bulbs, garden tools, insecticides, fungicides, pottery, lawn curbing, and other related items. We are truly a One-Stop Garden Shop.

Our Sales Personnel is one of the most experienced in the Southland. You will receive expert advice and assistance on all your garden problems.

Space does not permit us to list all of the stock. This catalog will serve as a gardening guide; but in order to fully appreciate and benefit from the wealth of services and material we are prepared to supply you, we strongly urge you to visit us. A stroll through our colorful grounds, covering a city block, is like a visit to your favorite park. Bring your friends. We want you to feel that this is YOUR GARDENING HOME.

THOMPSON FIGS

THOMPSON FIGS

"3-to-the-Pint"

Here are six good reasons why this sensational fig tree is just the thing for you:

1. ITS AMAZING SIZE—3 Figs Fill a Pint.
2. NO SUGAR NEEDED—It is Nectar-Sweet.
3. HEAVY BEARER.
4. OFTEN BEARS FIRST CROP 6 MONTHS AFTER PLANTING.
5. GROWS AS MUCH AS 20 FEET ACROSS IN 3 YEARS.
Or may be cut back every year and kept low.
6. PERFECT FOR CANNING.

The huge, dark purple fruit peels completely like a banana to a snowy white undercoat. No sugar required; its luscious, strawberry-like flesh makes a delightfully attractive and appetizing pack.

STURDY TREES IN 3 SIZES

3 to 4 ft.	4 to 5 ft.	5 to 6 ft.
\$2.50	\$3.50	\$3.00

Bulbs in Season

Among the bulbs for Fall planting (Spring bloom) are:

NARCISSUS	GRAPE HYACINTH	SPARAXIS
DAFFODILS	RANUNCULUS	LILIES
TULIPS	ANEMONES	TRITONIA
HYACINTHS	FREESIAS	CALLAS, etc.

For Spring planting (Summer bloom) are:

DAHLIAS, GLADIOLUS, TUBEROUS BEGONIAS in variety.

Fine California-Grown ROSES

RED ROSES

Bravo (Pat. 983). Well shaped ruffled petals of sparkling cardinal-red. Big, lusty blooms holding their brilliant color well even in hot weather. Slightly fragrant. \$2.25 each; 3 for \$6.00.

California Centennial (Pat. 953). A glowing crimson, with intense fragrance. Heavy 3-foot canes produce long-stemmed roses with few thorns. Coppery-green foliage. Buds long and spiral with elegant texture. \$2.00 each; 3 for \$5.25.

Carrousel (Pat. 1066). Classified floribunda because of its free-flowering habit, it is listed here because of its size. Flowers 3-4 inches across, non-fading dark red, opening from dark crimson buds. Bushy, good foliage. Mildew free. See page 4. \$2.00 each; 3 for \$5.25.

Christopher Stone. Scarlet-crimson veined with blackish crimson.

 **Chrysler Imperial** (Pat. 1167). A vivid crimson in ever changing iridescent tones from brightest to deepest shades of red. High-centered, 40-50 petal, fragrant blooms, 4-5 inches across, are borne singly on perfect cutting stems lasting up to one week when cut, even in warm weather. Buds long and tapering, foliage large, dark and semi-glossy. See page 5. \$2.75 each; 3 for \$7.20.

Crimson Glory. Urn shaped buds and high centered blooms of deep vivid crimson. Prolific grower. Delightfully fragrant.

Etoile de Hollande. Brilliant red. Fragrant and non-fading.

 **Grande Duchesse Charlotte** (Pat. 774). Buds a rich claret red changing as the flower opens to a lovely begonia rose. Richly fragrant and unusual in color. \$2.00 each; 3 for \$5.25.

Happiness (Pat. 911). Long, pointed buds open to very large, high-centered blooms of brilliant red, changing with age to crimson-carmine. Slightly fragrant. Long stems. Large foliage. Upright and vigorous. \$2.50 each; 3 for \$6.60.

 **Heart's Desire** (Pat. 501). Long-stemmed buds open to shapely, sun proof luminous red blooms of exquisite fragrance. Vigorous grower. \$1.75 each; 3 for \$4.65.

 **Nocturne** (Pat. 713). Deep cardinal red buds of exquisite shape open to form large richly textured flowers. Pleasingly fragrant. Buds in abundance for cutting. \$2.00 each, 3 for \$5.25.

 **Red Talisman**. Deep cerise blending into yellow at base. Fragrant.

San Fernando (Pat. 785). Long pointed, glowing red buds, open to fragrant flowers of brilliant scarlet. Luxuriant foliage. \$1.75 each; 3 for \$4.65.

Texas Centennial (Pat. 162). Blood red sport of Pres. Hoover. Tight buds and high centered flowers toned cerise at center. More carmine in hot weather. \$1.50 each; 3 for \$3.90.

ORANGE and MULTICOLOR ROSES

Autumn. Burnt orange, russet and bronzy red underlaid with yellow.

 **Forty-niner** (Pat. 792). Vivid red petals, bright yellow to straw yellow on the outside. Pleasing fragrance. Long pointed buds, well formed flowers. \$2.50 each; 3 for \$6.60.

 **Fred Edmunds** (Pat. 731). Beautiful buds of burnt-orange open to reddish apricot blooms, blended with rose, gold and salmon. Vigorous, free-blooming. \$2.00 each; 3 for \$5.25.

Girona. Outer petals bright rose pink, inner petals soft yellow.

 **Helen Traubel** (Pat. 1028). The color varies with the weather, from a sparkling pink to luminous apricot. The magnificent buds are large, long and open. Vigorous. See page 5. \$2.75 each; 3 for \$7.20.

 **Mojave** (P.A.F.). The only hybrid tea rose with an All-America award for 1954. Originated in Southern California, Mojave displays the bright colors of the Painted Desert of the West: a radiant apricot-orange highlighted with scarlet and vermilion. Buds are long and slender, the large flowers borne on long single stems. Tall, upright, vigorous. Glossy foliage. See page 4. Each \$3.00; 3 for \$7.95.

Mme. Henri Guillot (Pat. 337). Distinctive and sensational. Beautifully formed buds, reddish orange with undertone of gold, opening to deep pink camellia-like flowers. \$2.00 each; 3 for \$5.25.

President Hoover. Cerise-pink, scarlet and yellow blending into a dazzling color effect, fading to cream and pink.

Talisman. A mixture of rose-red, orange and yellow. Thousands of rose lovers mean Talisman when they say rose.

The following roses are selected for distinctive individuality. Satisfactory performance has established their popularity. Other varieties available.

BARE ROOT PRICE

**\$1.25 each unless otherwise indicated
10% discount from single rose price
on 10 or more roses**

**All rose prices are for bare root stock
Slightly higher in containers**

PINK ROSES

 **Capistrano** (Pat. 922). Beautiful buds and open flowers of clear rose pink. Extremely large and full. Plants vigorous and produce long stems. \$2.25 each; 3 for \$6.00.

 **Charlotte Armstrong** (Pat. 455). Beautiful, long, pointed buds of clear cerise-pink, opening to neatly tailored flowers. Petals margined with a thin silvery line. Vigorous, mildew-resistant, free branching. See page 5. \$2.25 each; 3 for \$6.00.

Countess Vandal. A lovely salmon-pink rose. Long, pointed buds open to a glorious form hardly equaled in any other rose. Rich shades of copper and gold within the flower.

Dainty Bess. Salmon-rose buds. Single rose-pink flowers with wavy petals and crimson stamens.

First Love (Pat. 921). Long slender delicate dawn pink, a little deeper on the outside shading to salmon, orchid and rose in the hot weather. Tips of the petals pointed and recurved. Each flower borne singly on a long stem. See page 5. \$2.25 each; 3 for \$6.00.

J. Otto Thilow. A glowing rose-pink, and most rewarding.

 **Katherine T. Marshall** (Pat. 607). Warm, soft pink of fruity fragrance. Long buds and very large flowers. \$1.75 each; 3 for \$4.65.

Lulu. A perfect boutonniere rose of coral-apricot. There is not a rose more exquisitely formed in the bud stage. Single flowers.

 **Mission Bells** (Pat. 923). A deep salmon pink rose. Buds beautifully pointed, high centered flowers of clear shrimp pink. Rich fragrance. Fine for cutting. \$2.25 each; 3 for \$6.00.

Picture. Rich pink rose with warm undertones of salmon which make the color cheerful and glowing. A continuous bloomer.

Santa Anita (Pat. 539). Produces quantities of perfect flowers. Lovely clear pink, excellent for cutting. One of the finest pink roses for Southern California. See page 4. \$1.50 each; 3 for \$3.90.

Show Girl (Pat. 646). Perfect phlox pink buds on long stems. Flowers rose-pink, fragrant. \$2.00 each; 3 for \$5.25.

The Doctor. Exquisite silvery pink. Intensely fragrant. Huge.

YELLOW ROSES

Buccaneer (Pat. 1119). A unique shiny buttercup yellow, lasting in nearly all weather. Moderately fragrant. Covered throughout the season with beautiful, long-stemmed buds. Useful for backgrounds because of its 5-6 ft. height. See page 5. \$2.75 each; 3 for \$7.20.

Chief Seattle (Pat. 1030). Warm buff with an inner glow of rich apricot. As many as 60 petals in a bloom, gently ruffled and held erect on long, strong stems. \$2.50 each; 3 for \$6.60.

Eclipse (Pat. 172). Long tapering yellow buds enhanced by a narrow green calyx. Rich golden yellow without shading. \$1.75 each; 3 for \$4.65.

 **Fred Howard** (Pat. 1006). Long rich yellow buds, tipped with penciling of light pink. Beautifully formed flowers on good, long cutting stems. See page 4. 3-4 ft. \$2.50 each; 3 for \$6.60.

 **Lowell Thomas** (Pat. 595). Very double high centered flowers in a lasting canary yellow. Large, long-pointed buds. Vigorous compact bush and leathery foliage. \$2.00 each; 3 for \$5.25.

McGredy's Yellow. Clear buttercup yellow in the bud changing to clear light yellow when open.

Mrs. E. P. Thom. Acclaimed the best bedding rose. Deep rich lemon-yellow flowers produced in quick profusion.

Mrs. P. S. Dupont. Long pointed reddish-gold buds open to semi-double flowers of rich golden yellow. Continuous bloomer.

 **Peace** (Pat. 591). Large, fully double flowers opening from well shaped buds. Often a clear pleasing yellow, sometimes only yellow at the base, fading to a lighter tint and delicate pink where the petals turn over. \$2.50 each; 3 for \$6.60.

Sun Valley (Pat. 1135). The brightest golden yellow rose ever seen of simply amazing brilliance. Long stems, tall plants. Shiny foliage. \$2.50 each; 3 for \$6.60.

 **Sutter's Gold** (Pat. 885). This is a lovely addition to our list of yellow roses. Each bud perfectly formed, glows with rich red and orange shadings. It is only mildly fragrant but free flowering and showy. See page 4. \$2.25 each; 3 for \$6.00.

WHITE ROSES

Frau Karl Druschki. Popular everblooming white. Immense buds tinged pink on outside. Flowers large, pure snow-white.

K. A. Victoria. Pure ivory white buds opening to full, well-shaped flowers on fairly long stems. An old favorite.

Sleigh Bells (Pat. 1004). Freely produced long ovoid buds opening gradually into large size blooms of gleaming white with a trace of cool primrose at the base. Fragrant. \$2.00 each; 3 for \$5.25.

Snowbird. Low bushy plants completely covered with clusters of semi-double pure white flowers. Free flowering.

CLIMBING HIGH NOON

See page 9 for
Cultural Information on
How to Plant and Care
for Roses

CLIMBING ROSES

No. 1 Grade Bareroot \$1.50 Each, Except Where Otherwise Priced. Plants Available Later in Containers at Slightly Higher Prices

Beautiful subjects to train against walls on trellises or allowed to clamber over rough fences. They have been traditionally used on arbors and pergolas where the bloom can be seen at a distance and easily examined close by. Cut out old wood after blooming, thus encouraging new vigorous growth from the base. This will bloom the next season.

Belle of Portugal. Beautiful vigorous grower offering a profusion of pearl pink blossoms from January to June. Buds are enormous, often reaching 3 to 4 inches in length.

Cl. Cecile Brunner. Very popular climber. Vigorous with dainty pink blossoms.

Cl. Charlotte Armstrong (Pat. 523). Lovely in all its stages from the carmine buds to the rich spectrum-red and cerise flowers. And free-flowering, too. \$3.50 each.

Descanso Pillar (Pat. 943). Acclaimed in test plantings both East and West. Because it grows to 8 feet without support, it is ideal for cover and background. The large flowers are coral to scarlet with yellow at the base, borne on long stems. Almost thornless. Foliage dark green and glossy. \$2.00 each.

Cl. Etoile de Hollande. The best red climber. This deep red climber produces the finest roses of any. Buds often larger and longer than the bush variety. Vigorous clean grower.

Cl. Heart's Desire (Pat. 663). A lovely red climber. Flowers as in the bush variety with same lovely color and delightful fragrance. Stems long for cutting. \$1.75 each.

High Noon (Pat. 704). Pillar rose to 8 feet high, covered with long stemmed golden yellow buds. Stems almost thornless. Not a rampant climber but suited to growing against a post, pillar or arbor. \$2.50 each.

Cl. K. A. Victoria. Most satisfactory of the white climbers is this free-flowering variety. Perfectly formed enormous paper-white buds, very fragrant.

Cl. Mme. Henri Guillot (Pat. 788). Long shapely buds of orange-red and rose opening to large camellia-like flowers of rich raspberry red suffused with gold. \$2.00 each.

Paul's Scarlet Climber. Improved. Semi-double blossoms of vivid scarlet are borne in clusters of 5 to 20 and envelop the vine in a wealth of brilliant color in spring.

TREE ROSES

We offer Grade No. 1 quality tree roses in the latest and best varieties in all colors.

Available the
Year 'Round
Growing
in Containers

Tree roses or "standard" roses are much in demand for accent planting and for those who prefer their roses up high where they can be seen without bending over. They are the regular roses budded on straight clean stems of another variety. Some pruning helps to keep them in a vigorous flowering condition. Keep all suckers cut off at the base of the cane and once a year thin out and shorten the head.

Cl. Peace (Pat. 932). As good as the favorite bush rose. Deep yellow flowers with appleblossom-pink edges changing from gold to cream, pearly white and cerise; the same foliage, the same strong stems. \$2.50 each.

Cl. Picture (Pat. 524). Perfect buds and flowers just as in the bush variety. Clear rose-pink with tones of warm salmon showing through. A climber of merit. \$2.00 each.

Cl. Pinkie (Pat. 1076). Polyanthus. Long, slender buds. Flowers about 2 inches across. Blooms nearly continuously from early spring to late fall. Spicy fragrance. 6-8 ft. in height. \$2.75 each.

Cl. President Herbert Hoover. One of the best multi-colored climbers. Flame, pink and buff. A rampant climber.

Cl. Red Talisman. Typical Talisman buds and flowers in a gorgeous shade of deep red.

Cl. Showgirl (Pat. 892). Phlox-pink buds open to rose-pink flowers of excellent form and fragrance. \$2.00 each.

Sunny June (P.A.F.). Single, slightly cupped canary yellow flowers with ovoid buds, coming in large clusters. Compact pillar, continuous bloomer. \$2.00 each.

Cl. Talisman. This well known rose hardly needs description. It is just like the bush form but a vigorous climber. Lovely red and gold.

Cl. Ville de Paris. Large, glossy dark green foliage and beautiful bright yellow flowers are exceptionally fine.

CLIMBING PAUL'S SCARLET

ROSES IN CONTAINERS

We make a special effort to have as many varieties of roses as possible in containers after the bare root season has passed. In this way our friends can see and plant the roses at any time in the year. You can secure vigorously growing, easily identified, high quality, established plants in this way at only slightly higher prices than those quoted for bare root roses in this catalog.

Select from Our Ready-to-Plant ROSES IN CONTAINERS for Continuous Summer Planting

FLORIBUNDA and

PINKIE (Pat. 712)

LILIBET (P.A.F.)

VALENTINE (Pat. 1029)

Generally speaking, this group of roses is small flowered, but like the Azaleas, there are a lot of them. The popular Cecile Brunner is one extreme while Connie Mack and Floradora are more showy because the flowers are in good size clusters. Beds of Floribundas are very bright and showy. The dwarfier ones make fine borders for the rose gardens, or plant in groups of three or more to enliven the shrubbery. Ideal for flower arrangements and bouquets. In general, the Polyantha roses are very similar to Floribundas, and they are included in this group without special identification.

Carrousel (Pat. 1066). Listed with the hybrid teas because of its size. See page 4. \$2.00 each; 3 for \$5.25; 25 for \$40.00.

China Doll (Pat. 678). A baby rose of perfect pink borne profusely in neat round clusters. The petals always drop cleanly. Low. \$2.00 each; 3 for \$5.25; 25 for \$40.00.

Cecile Brunner. Most popular of the baby roses. Small pink buds open to bright pink double flowers with a touch of yellow at the base of petals. Continuous bloomer. Low. \$1.25 each; 3 for \$3.30; 25 for \$25.00.

Connie Mack (Pat. 1062). A new Floribunda of glowing crimson with cheerful golden center. Finely formed buds. High. \$2.00 each; 3 for \$5.25; 25 for \$40.00.

Crimson Rosette (Pat. 901). Crimson clusters of brilliant red roses in bush-hiding profusion. Tremendously vigorous. Medium. \$1.75 each; 3 for \$4.65; 25 for \$35.00.

Fashion (Pat. 789). A lovely floribunda with miniature roses like those of hybrid teas in rich salmon-orange borne in clusters. Plant of medium height—flowers very attractive. \$2.00 each; 3 for \$5.25; 25 for \$40.00.

Floradora. Dense clusters of good size bright red flowers make this a very bright and showy floribunda. Fine foliage and sturdy habit. High. \$1.25 each; 3 for \$3.30; 25 for \$25.00.

Garnette. Produces a profusion of small, double blooms of garnet red with yellow base against a background of dark, leathery foliage. Slightly fragrant. Low. \$1.25 each; 3 for \$3.30; 25 for \$25.00.

Goldilocks (Pat. 672). Masses of golden yellow flowers all through the summer and fall. Best yellow. Medium. See picture. \$1.50 each; 3 for \$3.90; 25 for \$30.00.

Many Other Floribunda
Varieties Available at
the Nursery

GOLDILOCKS (Pat. 672)

POLYANTHA ROSES

Lilibet (P.A.F.). The acclaimed new floribunda All-America selection for 1954. It's quite a sight, this vigorous semi-dwarf bush, loaded with its charming, semi-double open flowers of Neyron-rose to porcelain-rose. They have the daintiness of fine Dresden china. The buds are ovoid, the foliage glossy. Medium. See picture. \$2.50 each; 3 for \$6.60; 25 for \$50.00.

Ma Perkins (Pat. 1143). Of sparkling color from start to finish, from red-accented Fashion-tones in the bud to the coral-shell shades in the open flower and the soft shell-pink in the end phase. Sweetly pungent fragrance. Fully clothing foliage. Medium. \$2.25 each; 3 for \$6.00; 25 for \$45.00.

Margo Koster. Clusters of coral-pink Camellia-like blooms. Low. \$1.25 each; 3 for \$3.30; 25 for \$25.00.

Pinkie (Pat. 712). Perfection in bud and bloom. The dainty pink bud is long and slender, the flower two inches across. Blooms nearly continuously from early spring to late fall. Spicy fragrance. Low. See picture. \$1.75 each; 3 for \$4.65; 25 for \$35.00.

Pink Rosette (Pat. 902). Produces open sprays of peach pink flowers, each spray bearing many flowers. Open flowers suggest the primness and beauty of Colonial roses. Makes an erect, strong growing bush with excellent foliage. Medium. \$1.75 each; 3 for \$4.65; 25 for \$35.00.

Pinocchio (Pat. 484) Persistently one of the most popular baby roses. It makes a bush seldom over two feet in height and clusters of dainty little flowers—salmon-orange flushed with gold. Medium. \$1.50 each; 3 for \$3.90; 25 for \$30.00.

Red Pinocchio (Pat. 812). This new brother of the long-favorite Pinocchio is of rich carmine which deepens and reveals a velvety overcast as the bud opens. The full-blown flower clusters are a rich scarlet. Medium. \$1.50 each; 3 for \$3.90; 25 for \$30.00.

Rose Elfe. Gardenia-like flowers of silvery rose-pink, about 2½ inches across, extremely double, coming freely all summer. Medium. \$1.25 each; 3 for \$3.30; 25 for \$25.00.

Summer Snow (Pat. 416). The most prolific of white Floribundas, producing literally a drift of white clusters throughout the summer. Low. \$1.50 each; 3 for \$3.90; 25 for \$30.00.

VOGUE (Pat. 926)

Valentine (Pat. 1029). A bright red Floribunda with 2½-inch semi-double flowers. Ideal for hedge or border. Will provide color all summer. Medium. See picture. \$2.00 each; 3 for \$5.25; 25 for \$40.00.

Vogue (Pat. 926). A sister seedling of Fashion, with most of its good qualities but a unique brilliant cherry coral all through the season. Rich, spicy fragrance. Medium. \$2.00 each; 3 for \$5.25; 25 for \$40.00.

HOW TO PLANT ROSES

THE TWO MOST IMPORTANT factors in rose growing are buying top grade plants, and proper planting.

Roses prefer an open area, free of tree and shrub roots, where they get half a day or more of sun, preferably morning sun. Keep roots moist and covered when planting.

Most any well drained soil, not too acid or alkaline can be made into good rose soil. Prepare the holes for planting well in advance. Dig holes 2 feet deep and 18 inches across.

Add to surface soil 10% peat. Mix well. When planting re-dig holes, build a cone-shaped mound in the center, spread roots over cone; bud union (bulge on understock where top is budded on the stock) slightly above level of the ground. Fill in, firming with feet; water thoroughly.

Roses are heavy feeders. Fertilize frequently, using ½ cup of a well-balanced fertilizer per plant. Dig a trench around plant, fill with water. When water settles place fertilizer in trench, fill with water again and cover after water has settled. After first application of commercial fertilizer a mulch of well-rotted manure may be applied.

Roses require plenty of water. Keep beds moist at all times. Frequency depends on soil,

from once or twice a week in sandy soil, to once in two weeks in heavy soil. Allow water to run slowly and soak deeply.

January is the best month for pruning bush roses in California. As much as possible cut out the old wood and shorten back the new growth about ½ of last year's growth. Cut out twiggy growth and cross branches. When cutting blooms leave 3 or 4 leaves with the top one pointing in the direction you wish the growth to go.

PRUNING CLIMBING ROSES. For the first two years after planting do not prune climbing roses. From third year on cut back all new growth ⅓ right after the flowering period. Climbers which bloom once a year bloom on wood produced the previous year. Prune these right after flowering to allow a good growth for next year's flowers.

Select from Our Ready-to-Plant ROSES IN CONTAINERS for Continuous Summer Planting

FLOWERING EVERGREEN SHRUBS

The largest number of ornamental plants available to gardeners in California are Evergreen Flowering Shrubs. This group includes subjects for every possible position; sun or shade, wet soils and dry. The coastal areas, inland valleys and lower mountains can all use them. Many have showy flowers, some useful for cutting, while some are only grown for their foliage. Many, like *Pyracantha*, *Arbutus*, etc., make a show in fruits later in the season. Following descriptions we give the approximate temperature at which the plant is hardy. Use this as a guide only to choose plants for the location to be planted.

ABELIAS

Abelia grandiflora, Glossy Abelia. Graceful evergreen shrub with arching branches, bronzy foliage and dainty fragrant white bells in spring and early summer. Sun or light shade. Very hardy. Gal. 85c; 5-gal. \$3.50.

Abelia, Edw. Goucher. Pinkish bells in summer. One of the best of the newer shrubs. Excellent foliage, compact habit of growth. Hardy. Gal. 95c; 5-gal. \$3.50.

ACANTHUS

See Foliage Plants, page 20.

ARALIA

See Foliage Plants, page 20.

STRAWBERRY TREE

Arbutus unedo. One of the finest medium-growing shrubs on the list. Deep green foliage and brilliant red strawberry-like fruits ripening about Christmas time. Very hardy. Gal. 95c; 5-gal. \$3.95.

AUCUBA

See Foliage Plants, page 20.

AZALEAS

Priced according to size and variety

For sheer beauty the masses of flowers produced by Azaleas in the late winter and spring with the end of the Camellia season, are unequalled. Quite often rains will threaten the bloom but they are a hardy lot and soon recover, showing no damage. They are essentially lovers of an acid soil which should possess an excellent drainage and quantities of peat. Pure peat, if the beds are large enough, would be best. Keep lime in any form away from them, fertilizing with cottonseed meal or Acid Food from April to September, giving light shade and plenty of water at all times.

Southern Indica Azaleas. We have a good selection.

INDICA AZALEAS

These are by far the choicest of the Azalea family with closely formed bushy growth, neat dark green leaves and the flowers! A gorgeous display of large flowers, mostly double but of delicate pleasing quality, not gaudy as in some Kurumes, often blended with other colors and plain or ruffled.

Albert and Elizabeth. Double, white with pale pink margins.

Avenir. Large, free-flowering bright salmon-orange. Single and semi-double.

Eric Schame. Large double flowers, salmon-pink with white blotches and streaks.

Fred Sanders. Masses of brilliant red flowers in spring. Low growing.

Mme. Charles Vuylsteke. The biggest and brightest red of all the Indicas. Double, prolific.

Orchid Flora. Spectacular, large double flowers of brilliant orchid-pink.

Paul Schame. Double. Lustrous coral salmon. Most popular.

Pink Pearl. One of the most popular. Large delicate pink flowers, daintily doubled.

Professor Walters. Single ruffled. White with deep blotches on upper petals.

Triomphe. Very fine, free-flowering variety, with masses of double, deep red blooms from January through March.

Vervaeana. Double. Salmon-rose color on white background.

Vervaeana Alba. Large, double, pure white flowers.

William van Orange. Large, fringed single orange flower that is especially showy. The plant bears dull, fuzzy deep green foliage. A heavy and early bloomer.

Other Varieties Available

KURUME AZALEAS

Cherryripe. Small semi-double rose-red bloom in incredible quantities. February.

Coralbells. Deep pink double bloom through March.

Hexe. Semi-double deep red flowers, larger than most Kurumes, through February, March and April.

Snowflake. Semi-double frosty white bloom through March.

Sweetheart Supreme. Double, pale pink bloom that resembles Cecile Brunner roses. Vigorous, bushy and upright.

SHRIMP PLANT

Beloperone tomentosa. Flowers 12 months of the year. Attractive, coppery bronze spikes that resemble shrimp. Medium height, 2 to 3 feet, sun or part shade. Cut the blooms for your flower arrangements or use as a pot plant for your friends in cold climates. Gal. 85c.

BOUVARDIAS

Bouvardia, Albatross. Handsome low growing shrub with spreading slender branches of waxy green foliage. Fragrant waxy white flowers, have exceptionally long tubes and four flaring petals. Last well when cut. Trim back to encourage new growth and flowers. Sun or part shade. 25°. Gal. \$1.25.

YESTERDAY AND TODAY

Brunfelsia floribunda, Yesterday and Today. Bushy, well rounded shrub with lustrous green foliage and flowers throughout the year. Flowers open blue-violet fading through lilac to almost pure white. Fragrant, they last well when cut. Sun or partial shade. 20°. Gal. \$1.35, 5-gal. \$3.95.

BOXWOOD

Buxus japonica, Japanese Box. Best taller growing Box for Southern California. Rounded glossy green leaves and lush dense growth. Always neat and attractive. Trimmed specimens available. Sun or shade. One of the best formal evergreen hedge plants; needs trimming only at long intervals. Hardy. Gal. 85c; \$8.50 dozen.

TRINIDAD FLAME BUSH

Calliandra guildingi. Medium size open growing shrub with fern-like foliage and showy plumes of bright red set all over the plant like bright red "flames". A good espalier plant. Does best in full sun and well drained soil. Hardy to 20°. Gal. \$1.35, 5-gal. \$3.95 and up.

BOTTLEBRUSH

Callistemon lanceolatus. Big, erect heads of dazzling crowded stamens, in bottle brush form, are boldly displayed against the polished lance-like leaves. Hardy and drought resistant. Profuse bloomer. Sun. 8-10 ft. Gal. 95c; 5-gal. \$3.75.

Callistemon viminalis. Beautiful large weeping shrub with brilliant red brushes on drooping branches. An excellent shrub for specimen since it will stand more water. Hardy to 15°. Gal. 95c, 5-gal. \$3.75.

EVERGREEN FLOWERING SHRUBS—Concluded

NATAL PLUM

Carissa grandiflora. A dense growing shrub for foundation planting or low hedges. The small, rounded leaves are deep shiny green and set off the pure white star-shaped flowers to advantage. Sometimes it bears red, plum-shaped fruits which can also be used for jelly. Hardy to 26°. Gal. 95c, 5-gal. \$3.75.

Carissa prostrata. Dwarf Natal Plum. A compact, spreading shrub, dark and polished with single white, waxy blooms. Maintains at all times a refined appearance. Gal. \$1.10, 5-gal. \$3.95.

CARPENTERIA (See California Natives, page 22)

CASSIA

Cassia artemisioides. Small rounded shrub with finely cut greyish leaves covered in spring with masses of golden-yellow pea-shaped flowers. Excellent for hot dry sunny places. Hardy to 15°. Gal. 95c, 5-gal. \$3.75.

CEANOTHUS (California Lilac). See California Natives, page 22.

ORIENTAL PLUMBAGO

Ceratostigma willmottianum, Chinese Plumbago. Dwarf, rounded plants almost 2 feet high. Ideal for partially shaded gardens and patios where it supplies an unusual display of blue flowers in summer. Hardy to 10°. Gal. 85c.

NIGHT SCENTED JASMINE

Cestrum parqui, Night Scented Jasmine. Rapid growing shrub with light green leaves and inconspicuous flowers but very fragrant in the evening. The delightful perfume lends enchantment to any outdoor living room. 27°. Gal. 85c, 5-gal. \$3.50.

GERALDTON WAX FLOWER

Chamaelaucium ciliatum. One of the finest shrubs introduced to California in recent years. Showy attractive pink flowers with red central cups cover the heather-like foliage in graceful sprays. Excellent as a cut flower, lasting several weeks in water. January to April. Sun. In Red and Pink. Hardy to 25°. Gal. \$1.50, 5-gal. \$3.95.

CHOISYA TERNATA (Mexican Mock Orange)

MEXICAN MOCK ORANGE

Choisya ternata. Bright green neat foliage; a neat rounded shrub of good proportions, easy to grow in sun or shade. Clusters of fragrant white flowers in spring. Hardy. Must have good drainage. Gal. \$1.25, 5-gal. \$3.95.

ROCK ROSES

Hardy shrubs. All require sun and good drainage.

Cistus corbariensis. Low spreading shrub with attractive sage green leaves and pure white flowers, averaging 2 inches across. Wonderful to cover slopes in sunny places. Gal. 95c, 5-gal. \$3.50.

Cistus ladaniferus maculatus, Brown Eyed Rockrose. Long deep green narrow leaves with the appearance of recent varnishing. Large crepey white flowers with showy brown spots at the base of petals. Sun. Gal. 95c, 5-gal. \$3.50.

Cistus purpureus. One of the finest Rockroses. Low and spreading with beautiful crepey pink flowers with maroon blotches at base of petals. Sun. Gal. 95c, 5-gal. \$3.50.

COCCULUS laurifolius. See Foliage Plants, page 21.

FLAME PEA

Chorizema varium. Rounded dark green leaves and pea-shaped orange-red flowers distinguish this variety. Makes an excellent low shrub for the foundation planting. Hardy to 24°. Gal. 95c.

LOOKING GLASS PLANT

Coprosma baueri. Unique round highly polished dark green leaves cover this medium-size shrub. Useful in foundation planting. Not much for flowers but the little orange berries are attractive. At its best in sea-coast districts. Hardy to 27°. Gal. 95c, 5-gal. \$3.50.

CORREA PULCHELLA

AUSTRALIAN FUCHSIA

Correa magnifica. A medium size hardy shrub with rounded olive gray leaves, the undersides of which are furry brown. The unusual, fuchsia-like flowers are chartreuse yellow and appear during the winter. Sun or part shade. 25°. Gal. \$1.10, 5-gal. \$3.95.

Correa pulchella. Marvelous new 2-foot shrub with spreading bushy habit, deep olive green foliage and graceful display of dainty pink bell-shaped flowers in winter and spring. Recommended as a foundation planting shrub. Sun. Gal. 95c, 5-gal. \$3.50.

COTONEASTERS

Very useful group of shrubs with white flowers and pretty red berries that lend an attractive color note to the garden. Many lend themselves nicely to rockeries, bank planting, or foreground shrub planting, but especially among rocks. The taller varieties make good all-around ornamental shrubs. All are hardy.

Cotoneaster glaucophylla. Low spreading shrub with grey leaves and red berries. Gal. 95c, 5-gal. \$3.75.

Cotoneaster horizontalis, Rock Cotoneaster. Flat spreading shrub with tiny glossy green leaves and bright red berries. Partly deciduous it assumes brilliant colors in cold winters. Gal. 95c, 5-gal. \$3.75.

Cotoneaster parneyi, Parney Cotoneaster. Very showy taller variety with handsome berries, largest of all, in immense clusters. Large glossy leaves. Gal. 85c, 5-gal. \$3.50.

Other varieties available at the Nursery

CANARY BIRD BUSH

Crotalaria agatiflora, Canary Bird Bush. Small tree or large shrub famous for the large, light yellow flowers that appear like flocks of "Canary Birds" resting on the branches. Foliage light green and attractive. Sun. Hardy to 28°. Gal. \$1.35, 5-gal. \$3.95.

FRAGRANT DAPHNE

Daphne odora marginata. Dense low shrub with rich green, cream-margined leaves and clusters of exquisitely fragrant waxy white or pink flowers from January to March. Good drainage is necessary. Shade or partial shade. Very hardy. Gal. \$1.75, 5-gal. \$4.95.

BREATH OF HEAVEN

Diosma pulchra. Dwarf compact bushy shrub with fine foliage like Heather covered with masses of tiny pink flowers during spring and summer. Sun. Very showy and graceful. Hardy to 20°. Gal. 95c, 5-gal. \$3.50.

Diosma reevesi. Same as the pink but with white flowers. Excellent to lighten the effect of heavy foliage masses in the shrub plantings, especially in foundations. Hardy to 20°. Gal. 95c, 5-gal. \$3.50.

SILVER BERRY

Elaeagnus pungens. A large spreading shrub that has its stems and leaves covered with frosty shiny scales. The large silver-bronze berries also have a frost-like tint. Gal. 95c, 5-gal. \$3.95.

ENGLISH LAUREL (See Prunus on page 19)

ERICA (Heather)

HEATHERS

Lovely fine foliage shrubs with showy masses of brilliant flowers. There are two types, one with tubular flowers (South African) and the other with small globular flowers (southern European). Both do well in sun but require a soil of pure peat with a little sand for drainage. Keep lime away from them and acidify the soil once a year with soil sulphur. All hardy to 15°.

Erica melanthera rosea. A tall growing shrub with masses of fine textured, plummy leaves and clouds of pink flowers. Gal. 95c, 5-gal. \$3.95.

French Heathers, various types. Compact and bushy, with stiff stems and rose-pink or salmon-coral flowers. Gal. 95c.

FREMONTIA. See California Natives, page 22.

ESCALLONIAS

Escallonia organensis. The finest Escallonia yet introduced and one of the best ornamental shrubs. Luxuriant glossy green leaves of medium size showing bronzy red tints. Flowers pink to white, like small apple-blossoms in large clusters. Gal. 95c, 5-gal. \$3.50.

Escallonia rubra. Low compact shrub with shining leaves and showy, rich red flowers. Likes a shady location. Gal. 95c, 5-gal. \$3.50.

EUGENIA

Evergreen shrubs or trees with privet-like foliage much used as clipped specimens. While young they stand clipping well. Useful as hedges and windbreaks, or as columnar shrubs as accents. The fruits of some varieties make odd jellies. Sun or partial shade. Hardy to 25°.

Eugenia myrtifolia, Brush Cherry. Dense growing shrub, the most popular of all Eugenias. New growth reddish, later turning green. Sun or shade. Purple berries are very attractive. Gal. 85c, \$8.50 per dozen gals.; 5-gal. \$3.50 and up.

EUONYMUS

Slow growing evergreen foliage shrub well suited to planting in the drier sections where it is used about the home as a foundation or specimen plant or as a clipped specimen. We offer **Euonymus japonicus**, deep green; **E. Aureo-marginatus**, with yellow margins and **E. argenteo-variegatus**, with silvery markings. All hardy and easy to grow. Gal. 85c, 5-gal. \$3.50.

FUCHSIAS

The highly colored yet delicate flowers of Fuchsias are so varied and beautiful that they are highly prized all over the country. In California they are hardy outdoors in shaded places. Give them a rich soil with plenty of leaf mold or humus and keep moist but not wet. They are best along the coast but do well inland with frequent spraying during hot spells.

See complete selection at nursery. Prices according to size and variety. Available in hanging and upright varieties.

PINEAPPLE GUAVA

Feijoa sellowiana, Pineapple Guava. Not nearly enough grown as an ornamental, this gray foliaged shrub glorifies the garden in spring with its waxy white flowers with plumes of bright red stamens in the centers. Fruits green, oval in shape, with 4 little ears left over from the flower and strongly scented of Pineapple. Very hardy. Gal. 85c, 5-gal. \$3.50.

We also have available special strains of large-fruited, aromatic guavas in grafted stock. Ask about them.

PINEAPPLE GUAVA

GARDENIAS

Glossy leaved shrubs famous for their waxy white flowers. Delightfully perfumed and much used for corsages and when cut simply to perfume the house. They are easy to grow in sun or partial shade when planted in a soil composed of leaf-mold, peat and sand. Drainage should be the best. Don't cultivate around the roots, instead spread a mulch of leaf-mold to keep the soil moist at all times. Hardy to 18 or 20°.

Gardenia grandiflora, Mystery. Improved form with large double flowers. Profuse during summer, off and on throughout the year. Gal. \$1.25, 5-gal. \$3.95.

Gardenia veitchi. Flowers somewhat smaller than Gardenia Mystery but extremely free-flowering, once it is established. Gal. \$1.25, 5-gal. \$3.95.

GUAVAS for Jelly and Ornament

Guavas are attractive shrubs for ornamental purposes, requiring nothing more than frost-free areas to grow. Excellent when used as hedges because of their close growth, fine foliage and colorful fruits. Use the fruits for jellies and preserves.

See also Pineapple Guava (Feijoa).

Red Strawberry Guava (Psidium cattleianum). Large deep red fruits of fine flavor. 24°. Gal. 95c, 5-gal. \$3.75.

Yellow Strawberry Guava (Psidium lucidum). Fruits yellow, somewhat firmer than the Red Strawberry. 24°. Gal. 95c, 5-gal. \$3.75.

EXQUISITE

Ornamental evergreen shrubs of exquisite beauty and highly prized for their flowers during the winter months. After blossoming the dark green, glossy foliage and dense habit of growth make an attractive appearance in the garden.

Priced according to size and variety.

Many other varieties, including novelties, available at Nursery.

E—Early; M—Midseason; L—Late

Alba Plena. Finest of all formal white camellias. Fully double flowers often 6 inches across. Lovely and delicate. E.

Aloha (Arajishi). Early flowering red peony-type camellia. Flowers are fully double, almost fluffy in appearance, of good size and attractive color. E.

Chandleri elegans. Largest and most popular peony-flowered camellia. Soft rose with a center of tightly curled petals, often showing white markings. E-M.

C. M. Wilson. Very new and very choice sport of Chandleri elegans, and like it in every respect except color. This new variety is a solid, clear, light pink. Most desirable. E-M.

Colonel Firey. The finest of all red camellias. The flat flowers are a rich glowing crimson often 6 inches across. M-L.

Covina. Compact and free-flowering variety. Flowers informal double rose-red, a non-fading bright color. Does well in sun. M.

Daikagura. Earliest of the larger sorts to flower. Double with center of small twisted petals, bright rose with white splashes. Fragrant. E.

Debutante. One of the finest newer varieties with beautiful fully double ball-shaped flowers in a delicate shade of pink. Ideal as a corsage flower. E-M.

Donckelari (True Southern). Very bright and showy flowers of large size are semi-double but show a few stamens at the center. The heavy textured petals are rich red with various markings and marbling of white. Slow bushy growth. Excellent foliage. M.

Elena Nobile. Medium size double flame red flowers show a few stamens in the center. A free flowering late variety of exceptional merit. L.

FINLANDIA VARIEGATED

GLEN 40

JULIA DRAYTON

CAMELLIAS ARE EASY TO GROW

in a shady, sheltered location, in acid soil with good drainage in which generous quantities of leaf mold or peat moss have been added. They require generous amounts of water during the growing season but this should never become stagnant for lack of drainage. Withhold fertilizer after the flower buds have set. All are hardy in Southern California. SASANQUA CAMELLIAS are different from Camellia japonica mainly in their willowy spreading growth, smaller, earlier flowers, tolerance to sun. Particularly adaptable to training on walls, trailing over rocks or ground covering.

CAMELLIAS

Emperor Wilhelm (Gigantea). One of the finest peony-type camellias grown. Flowers larger than Chandleri with the broad rounded outer petals and tight center of petaloids possessing a heavy wax-like texture and color a bright red variously marked and blotched with white. M.

Fimbriata Superba (Fred Sander). Crimson. A large formal double with fringed petals. Vigorous, compact growth. Upright. E.

Finlandia (Dearest). Popular semi-double white of exceptional beauty. Porcelain texture of the petals is beautiful with yellow of stamens. M.

Finlandia Variegated (Margaret Jack). The same as above with beautiful wine-red variegation.

Grandiflora rosea (Lady Clare). Large semi-double pink. Broad waxy petals, neatly veined, surround a high cluster of bright yellow stamens.

Francine. In every way this variety is like Chandleri elegans—in size of flower, form and blooming and growth habit but the color is a uniform Camellia rose throughout. E-M.

Glen 40. This is the most talked of new red camellia. Flowers are large fully double with rounded overlapping petals. The bright red color is enhanced by salmon undertones. M-L.

High Hat. Large double, indescribably soft shell-pink, sometimes lightly marbled with white. E.

Jordan's Pride (Herme). Delightfully fragrant flowers 5 to 6 inches across. Semi-double, petals large, broad, light pink with broad irregular border of white around each. M.

Julia Drayton (Mathotiana rubra). Huge flowers, often 7 inches across, are uniformly brilliant scarlet, beautifully veined. Double with high pointed center. Very fine. M-L.

Kumasaka. Large loose double rose-pink flowers with a pleasing fragrance. Center petals curled and twisted but showing the golden stamens. Many large flowers; good growth. M-L.

Laurel Leaf (Lallarook). Although named for the foliage which is large and laurel-like in character it has very lovely pink flowers, too. Flowers are over four inches across, fully double with imbricated petals just the thing for a corsage. M-L.

Mrs. Howard Asper. Light pink. Very large, cup-shaped semi-double form of Lotus. M.

DONCKELARI

DEBUTANTE

EMPEROR WILHELM

Pax (White Laurel Leaf). Large formal double white. Especially fine foliage. Upright. Compact. M-L.

Pope Pius IX. Large double red flowers. Good growth, light colored foliage. One of the best in our list. M.

Prof. Sargent. Unusual scarlet flowers. Fully peony-type. Free flowering variety. Semi-dwarf. Rates among the top few of camellia elite. M.

Purity. Symmetrical double flowers of large size and snow-white purity. Often 6 inches across. Very popular white. L.

Reticulata Captain Rawes. Iridescent carmine-pink, very large and semi-double, fluted petals with a mass of black-tipped stamens at the center. Foliage heavily veined and sharply serrated. M-L.

Ville de Nantes. Semi-double flowers with fimbriated petals, red with white variegation. Sometimes solid red. M.

White Daikagura (Joshua E. Youtz). Full peony form to formal double, and pure white. Like Daikagura, it is very early. One of the very best new camellias. E.

SEA URCHIN

Hakea suaveolens. Where a tall screen is needed this drought resistant shrub will fill the spot admirably. Dense bright needle-like leaves and exceptionally rapid growth. Hardy. Sun. Gal. \$1.00, 5-gal. \$3.75.

HIBISCUS

HIBISCUS

One of our most popular California flowering shrubs, especially along the coast, although some varieties do well inland if sheltered from hot dry winds. Lush glossy green foliage and abundant bloom in summer. Give plenty of sun and a rich soil. All are tender but if frosted generally recover.

Priced from \$1.00 to \$1.50 per gal., depending on variety.

Agnes Gault. The most popular large flowered single pink. Flowers often measure 6 to 7 inches across.

Crown of Bohemia (Bali). Choice yellow double with rich autumn tones of orange and bronze. Very popular.

Honolulu. Large single flowers best described as a salmon Agnes Gault.

Kate Sessions. Huge, single flowers with overlapping orange-pink petals and crepe-like texture.

Kona (Double Agnes Gault). Fully double, large attractive flowers in the same beautiful pink of the single type.

Orpha. Double rose-red.

Paradise Moon. Compact growing plants with unusual, bright yellow flowers with a white center. Single.

Red Monarch. Finest of all double Hibiscus with deep dark red fully double flowers of good size.

San Diego Red (Scarlet Single). Popular clear red single.

White Wings (White Single). Good single pure white.

Larger plants and other varieties also available.

HYPERICUM

Hypericum patulum henryi. Medium sized shrub of fairly rapid growth, retaining its compact form with little additional care. Large yellow flowers. Sun or partial shade. Very hardy. Gal. 95c, 5-gal. \$3.50.

Hypericum moserianum. Low growing shrub sometimes three feet high and as much across, with good dense habit, dark green leaves and yellow flowers. Very hardy. Gal. 95c, 5-gal. \$3.50.

Hypericum Sungold (Pat. 568). Hardy dwarf shrub of oval shape, up to 2 feet high and 3 feet in diameter with immense quantities of flowers, larger than on other Hypericums. The foliage is handsome throughout the summer. Gal. \$1.50, 5-gal. \$3.95.

HOLLY

Ilex aquifolium, English Holly. For Christmas decorations this Holly resembles the traditional American Holly with its spiny leaves, bright glossy dark green and bright red berries on the female plants. Porous soil, preferably partly shaded. Hardy. Gal. \$1.25 and up, 5-gal. \$4.50 and up.

Ilex cornuta, Chinese Holly. Differs in the broader leaves with fewer spines. Nice dark green foliage and as a berry bearing shrub very showy. Perhaps a little more desirable than the English Holly for California gardens. Very hardy. Gal. \$1.25 and up, 5-gal. \$4.50 and up.

Ilex cornuta rotunda. Very superior. Its naturally dense habit of growth lends itself to those small, shady areas that often become so rank with growth. Brilliant red berries in profusion. Gal. \$1.50 up.

Ilex burfordi. This holly is adapted to the milder climates. Has the deep dark green foliage although almost without spines, and clusters of bright red berries in winter. Excellent for Christmas berries. Very hardy. Gal. \$1.25, 5-gal. \$3.95 and up.

SWEET SPIRE

Itea ilicifolia, Holly-leaved Sweet Spire. One of the finest dwarf shrubs—to 3 feet and spreading. The holly-like dark green leaves densely clothe the graceful stems and half conceal the fragrant white spirelike spikes. Hardy to 15°. Gal. \$1.25, 5-gal. \$3.95.

LANTANAS

Lantana camara. Excellent to cover banks, trained against walls as a vine, as a ground cover, in pots, and even as a specimen shrub. Full sun, little care will make them at home. Of course they like a drink now and then. Hardy to 25°.

Dwarf varieties. Yellow, white, Radiation (orange-red), pink.

Tall varieties. Orange, white and pink. Gal. 75c.

Lantana sellowiana, Trailing Lantana. Lavender flowers cover this foot high trailer most of the summer. Freezes out in places but generally comes back. Sun. Gal. 75c.

Lantana callowiana aurea, Goldrush (P.A.F.). Practically all year countless clusters of the brightest yellow flowers cover this plant. Deep forest green foliage sets off the golden bloom. Its trailing habit makes it usable for ground covers, bank covers, planters, etc. It grows rapidly and requires very little care. Gal. \$1.25.

LEPTOSPERMUM

Leptospermum laevigatum, Australian Tea Tree. Graceful shrub with long curving branches, fine greyish-green leaves, and small white flowers in spring. Dry soils with good drainage and sun. Makes an excellent windbreak. Hardy. Gal. 95c; 5-gal. \$3.50 up.

Leptospermum scoparium flore pleno, Double Tea Tree. Erect branches, finely cut foliage and double bright rose-pink flowers often 3/4 inch across make a very showy shrub in spring. Hardy. Gal. 95c, 5-gal. \$3.50 and up.

Leptospermum Ruby Glow and other hybrids. We offer a few of the better selections of choice hybrids of leptospermums which include some new colors and habits of growth. The flowers are either single or double. Sun and excellent drainage. Gal. \$1.25, 5-gal. \$3.95.

ORNAMENTAL DWARF CITRUS

Lemon, Meyer Dwarf. A valuable ornamental shrub for its pearly white, lavender flushed, exceedingly fragrant flowers and showy lemons which follow. Lemons are of high quality and can be used as any other lemons. Quite hardy. Gal. \$1.25, 5-gal. \$3.95 and up.

Rangpur Lime. Medium sized golden yellow acid fruit, white fragrant bloom, light green foliage and rapid growth. Hardy to frost. Gal. \$1.25, 5-gal. \$3.95 and up.

LIGUSTRUMS for Hedges and Specimens

Ligustrum japonicum, Japanese Privet. Large shrub with dark green leaves. One of the finest privets for all hedges or large specimen shrubs. Hardy. Gal. 85c, \$8.50 per dozen; 5-gal. \$3.50 and up.

Ligustrum texanum, Wax-leaf Privet. Tall erect shrub with large glossy dark green leaves, very much like Lilac. Fragrant waxy-white flowers in spring. Specimens for parking strips, or as tall or medium height hedge. Hardy. Gal. 85c, 5-gal. \$3.50 and up.

OREGON HOLLY

Mahonia aquifolium. Large dark holly-like leaves, many of which assume brilliant scarlet shades in autumn, yellow pea-shaped bloom and grape-like clusters of purple fruit. Hardy. Sun or shade. 2 1/2-4 ft. Gal. \$1.25, 5-gal. \$3.95.

MATILJA POPPY (See California Natives, page 22)

BOTTLEBRUSH

Easily grown small-leaved shrub with graceful, arching stems and flowers that suggest bottle brushes. This is the Small Flowered Bottlebrush, generally more graceful and ornamental than Callistemon. Prefers sun, in a well drained soil.

Melaleuca nesophila, Pink Bottlebrush. Bright green leathery leaves and lilac-rose flowers. 15°. Gal. 95c, 5-gal. \$3.95.

ORANGE JASMINE

Murraea exotica. Planted against an east, west or south wall this handsome shrub will reward you with intriguing polished foliage and waxy white fragrant summer bloom. Dense growth. 4-6 ft. Gal. \$1.10, 5-gal. \$3.95.

MYOPORUM

Myoporum laetum. Shrub or small tree with bright, shiny leaves and purple spotted white flowers. An exceptionally fine plant for use near the sea coast. Gal. 85c, \$8.50 per dozen; 5-gal. \$3.50.

PITTOSPORUM UNDULATUM (Victorian Box)

AFRICAN BOX

Myrsine africana. Close growing shrub resembling boxwood but much more colorful. Deep glossy green leaves are closely set on slightly reddish stems. Useful as a low hedge. Stands shearing. 15°. Gal. 95c, 5-gal. \$3.50.

MYRTLE

Myrtus communis compacta. Small, pointed leaves in dense masses on this compact shrub. Excellent for low hedges. 15°. Gal. 85c, \$8.50 per dozen; 5-gal. \$3.50.

HEAVENLY BAMBOO

Nandina domestica. Not a Bamboo but the foliage does resemble a small variety in many ways. Leaves light green tipped with pink and copper in early spring, assuming a vivid red in autumn. Bright crimson berries in some winters. Very hardy. Gal. 95c, 5-gal. \$3.50 and up.

OLEANDERS

Nerium oleander. Large bushy shrubs freely blooming all summer, during the hottest weather. Do well in the hot dry interior valleys. Slender feathery leaves. In various colors, single and double. 18°. Gal. 85c, 5-gal. \$3.50.

COLORFUL OCHNA

Ochna multiflora. A compact growing shrub with handsome ever-green foliage. In spring it is covered with bright yellow buttercup-like flowers which are later transformed into the most unusual of all fruits. The green calyx becomes bright blood red and supports several berry-like seeds, green at first, later jet black. Gal. \$1.50, 5-gal. \$3.95.

OSMANTHUS DELAVAYI

OSMANTHUS

Osmanthus delavayi. A broad, dense shrub covered with small oval or rounded leaves of deep green. Clusters of fragrant white flowers. Gal. \$1.50, 5-gal. \$4.50.

Osmanthus fragrans, Sweet Olive. Dark green glossy leaves, creamy white flowers most abundant in autumn. Very fragrant. Hardy to 10°. Gal. \$1.10, 5-gal. \$3.50 and up.

Osmanthus ilicifolius, False Holly. Irregularly spined leaves of leathery texture, dark green. Blooms late fall through early spring. Very fragrant. Gal. \$1.25, 5-gal. \$3.95.

PHILODENDRON SELLOUM. See Foliage Plants, page 21.

PHORMIUM. See Foliage Plants, page 21.

CHINESE PHOTINIA

Photinia serrulata, Chinese Photinia. Large broad toothed leaves often assuming pretty red or bronze tints especially when young or during cold weather. Berries in large clusters. Very hardy. Gal. 95c, 5-gal. \$3.95.

Photinia arbutifolia (California Holly). See California Natives, page 22.

PITTOSPORUM

This group of large shrubs forms the backbone of most California plantings. Some varieties are large shrubs or small trees. All are easy to grow, and hardy except in extremely cold places. Some have showy sweet scented flowers.

Pittosporum crassifolium. Gray-green foliage. Should be pruned to make the plant more compact. Excellent for screens, does well in sandy soils. Gal. 95c, 5-gal. \$3.50.

Pittosporum tobira. Handsome spreading shrub with glossy dark green leaves, clusters of fragrant white flowers in spring, followed by small yellowish pods which open to show the bright red seeds. One of the most useful ornamentals for the west coast. 15°. Gal. 95c, 5-gal. \$3.50.

Pittosporum tobira variegata. Dwarf spreading shrub with greyish leaves having silvery-white margins. Very attractive. Gal. \$1.25, 5-gal. \$3.95.

Pittosporum undulatum, Victorian Box. Beautiful round headed tree or large shrub. Useful also as a hedge. Rich green leaves with wavy margins, yellowish-white flowers, very fragrant at night. 22°. Gal. 95c, \$9.50 per dozen; 5-gal. \$3.50 and up.

PRINCESS FLOWER

Pleroma grandiflora (Tibouchina). Velvety bronze hairy leaves, reddish stems and very large purple flowers, often 3 inches across, in fall and winter. Showy and beautiful, does best in slightly acid soil. Gal. \$1.25, 5-gal. \$3.95.

BLUE PLUMBAGO

Plumbago capensis. Excellent ornamental shrub of refined habit, good foliage and showy blue flowers all summer and at a time when good flowers are scarce. Easy to grow and happy under all conditions. Semi-climbing; it can be easily trained as a vine. Hardy to 24°. Gal. 85c, 5-gal. \$3.50.

For Chinese Plumbago, see Ceratostigma.

EVERGREEN SHRUBS—Continued

DOUBLE POINSETTIAS

Poinsettia Henrietta Ecke. This is the famous double Poinsettia. Actually has so many bright bracts that it appears to have a double center. Gal. \$1.00.

SWEET PEA BUSH

Polygala dalmaisiana. Small rounded shrub with tiny yellow-green leaves and pretty orchid-like purple flowers all year around. Gal. 85c, 5-gal. \$3.50.

LAUREL

Prunus laurocerasus, English Laurel. A fine broad-leaved evergreen shrub used mostly for specimen planting and hedges. The oval leaves always present a cool refreshing green color. Hardy. Gal. 95c, 5-gal. \$3.50.

EVERGREEN CHERRIES

Prunus caroliniana. Carolina Cherry. Beautiful large shrub or small tree for specimen or screen planting. Deep glossy green foliage; white flowers followed by black cherries. Hardy. Gal. 85c, 5-gal. \$3.50 and up.

Prunus lyoni. Catalina Cherry. See California Natives on page 22.

PYRACANTHA for Colorful Berries

All Pyracanthas Staked and Shaped

Strong growing sturdy shrub with erect or spreading thorny branches and narrow dark green leaves and clusters of white flowers in spring. The real glory of these shrubs is the colorful abundance of berries in fall and winter. Rich fairly moist soil. Sun or partial shade.

Pyracantha duvali (Plant Pat. No. 346). Heavy fruiting with large red berries. Shrub needs room so the glossy dense foliage and huge crops of berries can be shown to advantage. Gal. \$1.50, 5-gal. \$3.50 and up.

Pyracantha graberi. Gracefully arching stems covered with large bright red berries. Dark glossy foliage. Heavy bearer. Gal. 95c up, 5-gal. \$3.50 and up.

Pyracantha lewisii. A new selection of this lovely berried shrub. Dark green glowing foliage and bright red berries, larger than usual, and in quantity. Gal. \$1.25, 5-gal. \$3.50 and up.

Pyracantha Select. Large, bright red berries remaining on the shrub for considerable time. Specimens are heavily berried. Gal. \$1.25, 5-gal. \$3.50 and up.

Pyracantha Victory. Late fruiting variety with very large berries, rich red with a bright sheen. Robust shrub makes an excellent specimen plant. Holds berries longest of all. Gal. \$1.25, 5-gal. \$3.50 and up.

Pyracanthas also available in espalier form.

EVERGREEN PEAR

Pyrus kawakami. Whether grown as a large shrub, espaliered against a wall, or trained as a small tree, this plant is a year-around beauty. Glossy, bright green leaves, long branches, and in the spring loaded with fragrant white flowers. Gal. \$2.50, 5-gal. \$5.95 and up.

RAPHIOLEPIS

Raphiolepis delacouri. One of the loveliest of pink-flowering evergreen shrubs for California gardens. This plant makes a bushy, rounded, compact mound of rich olive-green foliage, the new growth being mahogany-red. In the spring it is covered with big 4-inch panicles of clear rosy pink flowers, deeper in color than those of the pink Indian Hawthorn. Sun or part shade. 5 to 8 ft. 15°. Grafted stock. Gal. \$2.50; 5-gal. \$5.95.

Raphiolepis indica rosea (Grafted). A new variety with bright pink flowers and neat glossy foliage. Exceptionally fine for low planting. Gal. \$1.75, 5-gal. \$4.95.

RHAMNUS Californica. See California Natives, page 22.

RHODODENDRONS

Priced according to size and variety

The tremendous springtime display of great trusses of bloom formerly believed to be the exclusive right of more northern gardeners can be obtained here, too. Location and care of the plants is the secret. Give rhododendrons a spot where they will receive filtered shade for protection, the same kind of acid soil conditions you provide for azaleas, and most important of all, a steady, considerable moisture supply in a very well drained situation. Continuous mulching with peat moss is essential, but little or no fertilizer is necessary.

ROSEMARY

Rosmarinus Lockwoodi. Trailing Rosemary. A dwarf growing shrub seldom over 6 inches high with deep green foliage. Stems root as they go, making a wonderful cover shrub. Flowers are borne in large clusters and are a clear light blue. Gal. 95c.

FRAGRANCE FROM CHINA

Sarcococca ruscifolia. Medium size shrub (4 feet), attractive dark green shiny rounded leaves. Useful in partially shaded places as a foliage shrub, the beauty of which is augmented by dark scarlet berries. Very hardy. Good indoor plant. Gal. \$1.10, 5-gal. \$3.95.

PARAGUAY NITESHADE

Solanum rantonetti. One of the best shrubby Solanums. Neat, clean green foliage and quantities of yellow centered blue flowers, almost 1 inch across. Well recommended. Tender. Gal. 85c, 5-gal. \$3.50.

AUSTRALIAN BLUEBELL

Sollya heterophylla. When allowed to develop naturally, this polished shrub will form a 3-foot thicket of small leaves above which, in early summer, dainty nodding blue bells in graceful racemes are handsomely displayed. May also be trained as a vine. Hardy. Sun. Gal. 95c, 5-gal. \$3.75.

STRELITZIA. See Foliage Plants, page 21.

BRONZY TERNSTROEMIA

Ternstroemia gymnanthera. No other shrub can approach the year 'round rich finish and unusual coloring of this hardy shrub. The substantial 2- to 3-inch leathery leaves, in the younger stages, are painted a glowing bronze and orange which change to bronzy maroon, as the leaves mature. Sun or light shade. Hardy. 4 ft. Gal. \$1.75, 5-gal. \$4.50.

VERONICAS

Veronica buxifolia. Small, stiff, bluish-green leaves similar to boxwood make this a good plant for low foregrounds or dwarf hedge. Light blue flowers in summer. Easy. Gal. 85c, 5-gal. \$3.50.

Veronica imperialis. Small rounded bush with bright purple-crimson flowers. Blooms all summer, stands sun and heat and is hardy. Gal. 85c, 5-gal. \$3.50.

VIBURNUMS

A hardy lot of good substantial shrubs useful in foundation planting, shrub borders, or as hedges. Some have fragrant flowers, others ornamental berries.

Viburnum japonicum. Fast growing shrub. Large glossy leathery leaves suggest English Laurel. Gal. 85c, 5-gal. \$3.50.

Viburnum suspensum, Sandankwa. Medium size shrub with lush leaves, neat foliage; white to rose pink flowers and scarlet berries. Neat, slow growth and attractive either as a specimen or hedge. Gal. 85c, 5-gal. \$3.50.

Viburnum tinus robustum. Very fine evergreen shrub making a dense growth of deep green glossy foliage. Clusters of pink buds open to dainty white flowers in spring. Hardy. Gal. 85c, 5-gal. \$3.50.

XYLOSMA

XYLOSMA senticosa.

One of the finest foliage shrubs of recent introduction. Leaves are small, oval and pointed. Light cheerful green reflecting the gold of sunlight pointed out by subtle tints of red. Useful as ground cover, as specimen shrub and well suited to training on a wall as espalier. Gal. \$1.25, 5-gal. \$3.95.

XYLOSMA

FATSHEDERA

ANTIQUE ACANTHUS

Acanthus mollis. The leaves of this plant were used as a pattern by the ancient Greeks in designing Corinthian columns. Its foliage—bold, broad, and green, and its tall spikes of densely set, whitish flowers continue to lend classic grace to modern gardens. Hardy. Full sun. Gal. 95c, 5-gal. \$3.50.

RICE PAPER PLANT

Aralia papyrifera. Tall shrub with stout trunk like a tree with large tropical appearing dull green leaves often over a foot across. In winter the large trusses of creamy flowers appear at the top of the stem. Freezes but recovers better than before. Sun or light shade. Gal. \$1.25, 5-gal. \$3.95 and up.

Aralia sieboldi (Fatsia japonica). The glossy rice paper plant. Wonderful shrub for tropical effects. Bold glossy foliage. Makes an excellent tub plant. Hardy. Gal. 95c, 5-gal. \$3.50 and up.

CLIVIA

COCCULUS
LAURIFOLIUS

AUCUBA

Aucuba japonica. Slow growing plant for shaded places or tubs. Large glossy pointed leaves. Bright red berries in fall, provided pollinizer is planted nearby. Give plenty of water. Grows in the deepest shade where other plants fail. Hardy. Gal. \$1.25, 5-gal. \$3.95.

Aucuba japonica variegata, Gold Dust Plant. Slow growing, for shaded places or tubs. The large, glossy, pointed leaves are spotted or speckled with gold. Give plenty of water. Grows in deepest shade where other plants fail. Hardy. Gal. \$1.25, 5-gal. \$3.95.

Aucuba japonica longifolia. Similar in growth to the regular green japonica, this variety has much longer, and somewhat narrower leaves. A handsome foliage plant. Gal. \$2.50.

BAMBOO, PALMS, ORNAMENTAL GRASSES

We have available a good assortment of varieties of bamboo, palms and ornamental grasses such as Pampas Grass (Cortaderia selloana). These make fine tropical effects in spite of the fact that they are, for the most part, absolutely hardy in our winters.

ELEPHANT'S EAR

Caladium esculentum. A tuberous plant from the tropics. Its large, bright green leaves are spectacular. Some attain a length of 3 ft. Prefers rich soil and partial shade—used for tropical effects in landscaping. Gal. \$1.25, 5-gal. \$3.95 and up.

CLIVIA

Miniata Hybrids. Long broad strap-like leaves of dark green piling one on the other in a fan-shaped growth, from which the flower stalks appear with their bright orange clusters of flowers. Dense to light shade and plenty of even moisture. Don't disturb the roots when planting. Gal. \$2.50 and up.

FERNS

Alsophila australis (Tree Fern). A slender, graceful stem surrounded by a spreading head of long, light green fronds, enhances any planting. Especially suitable for tropical effects. Prefers a moist, shaded location. Gal. \$2.50 and up.

Dicksonia antarctica. While this tree fern is slower growing than Alsophila, it reaches a height of 10 feet and presents a more dense growth of fronds. It is distinctly more resistant to cold, and where Alsophila is too tender, this exotic and attractive plant is the perfect answer. \$2.50 and up.

Woodwardia chamissoi. The familiar native mountain fern with big broad arching fronds, 3 to 6 ft. long. 0°. Gal. \$1.25 and up.

Other Varieties Available.

TROPICAL FOLIAGE

Fatshedera lizei. Hybrid between Fatsia japonica and Hedera helix, this vine has large glossy ivy-like leaves which make a tropical effect. Can be trained on trellis, walls or allowed to cover tree trunks. Hardy. Gal. \$1.25, 5-gal. \$3.95 and up.

FOLIAGE PLANTS FOR INDOOR

Left to Right, Front: Philodendron cordatum—Pothos (Mar. Peperomia)—Peperomia sandersi—Nephtytis, Tri-le-ana. Many other varieties available in planters.

Foliage Plants For Exotic Tropical Effect

FOR OUTDOOR PLANTING

HINDU LAUREL

Cocculus laurifolius. Large specimen shrub with long pointed waxy green leaves of pleasing lustre. Outstanding foliage shrub with graceful branches which make superb "greens" in flower arrangements. Hardy, except in coldest locations. Gal. \$1.35, 5-gal. \$3.95.

NEW ZEALAND LAUREL

Corynocarpus laevigata. An excellent evergreen tree with large, oblong, glossy, leathery leaves. It does well in a shady location and reaches a height of about 15 feet. Gal. \$1.50; 5-gal. \$4.00 up.

CHRISTMAS ROSE

Helleborus niger. The things we particularly like about this hardy perennial are its big polished hand-shaped leaves, that are as attractive in winter as in summer, and its habit of perfecting its 2-inch star-shaped purple blooms in mid-winter. Individual flowers last for weeks. Shade. 1½-2 ft. Gal. \$1.25.

INDOOR USE IN PLANTERS
Pothos, Marble Queen—Peperomia obtusifolia (Watermelon
Pothos), Tre-Leaf Wonder—Pothos aurea. Left to Right, Back:
Chinese Evergreen)—Dracaena sanderiana—Maranta kerchove-

ABYSSINIAN BANANA

Musa ensete. Planted against a tall wall, where there is protection from strong winds, this shrub will lend a pleasing tropical atmosphere. Huge long leaves with red mid-ribs and, eventually, clusters of enormous red bloom. 12-15 ft. Sun or part shade. Not frost hardy. Gal. \$1.50, 5-gal. \$3.95 and up.

GINGERS

On lofty spikes, above big lush lance-like foliage, are borne in late summer and fall delightfully fragrant showy blooms. Provide light shade and plenty of moisture.

Alpinia nutans, Shell Ginger. This member of the ginger family grows up to 10 feet tall, with broad, long leaves and attractive, fragrant white flowers, tinged purple. Tender to frost. Gal. \$1.95.

Hedychium coccineum. One of the best dwarf foliage plants, this dwarf ginger grows in dense clumps only about 1 foot high. Leaves are 8 to 10 inches long and produce a most exciting and spicy fragrance when crushed. Does not bloom. Gal. \$1.50.

Hedychium coronarium. Snowy white. 4-5 ft. Gal. \$1.50.

Hedychium gardnerianum. Golden yellow. 5-6 ft. Gal. \$1.50.

NEW ZEALAND FLAX

Phormium tenax. Long, stiff, sword-like leaves margined with red and orange lines. Very suitable for tub planting. Will do well in desert areas. Gal. \$1.25, 5-gal. \$3.95.

Phormium tenax variegatum. Broad white and yellow streaked leaves, rising like a giant yucca from the ground, forming wide clumps to 6 or 7 feet. Hardy. Sun. 1-gal. \$1.50, 5-gal. \$4.50.

FERN PINE

Podocarpus elongata. Here is a good foliage plant with fern-like light green leaves that will tolerate sun or shade from light to dense. Useful as a tub plant specimen. Gal. \$1.75 and up, 5-gal. \$4.95 and up.

Podocarpus macrophylla. Slightly larger deeper green leaves make this erect shrub outstanding. Slower growing. Stands shearing well. Excellent formal specimens, especially in shaded places. Gal. \$1.35 and up, 5-gal. \$4.50 and up.

PHILODENDRON SELLOUM

HONEYBUSH

Melianthus major. A spreading shrub which is used chiefly for tropical effect. The restless, grey blue foliage mass is of greatest interest because of its unique texture. Also bears a dark red or chocolate-colored spike of flowers in mid-winter. Gal. \$1.25, 5-gal. \$3.95.

OUTDOOR PHILODENDRON

Philodendron selloum. While this magnificent plant can also be grown indoors, one of its great advantages is the fact that it is the only philodendron really at home in your patio or other shaded outdoor location. The leaves are immense, glossy, and deeply lobed. A wonderful theme plant for a tropical setting reaching considerable size in a short while. Relatively hardy. \$2.00 and up.

BIRD OF PARADISE

Strelitzia nicolai. Quite different in growth habit from Reginae, this tropical beauty develops a clump of thick trunks something like a banana tree, and reaches a height of 10 feet or more. Broad, long leaves, with flowers on relatively short stems just above the leaf. The blossoms are huge, more than double the size of the familiar Reginae, with ivory white petals and blue tongue. \$2.50 up.

Strelitzia reginae. Lush green oval leaves on stiff, erect stems. Forms a good size clump over which the orange and blue birds perch on stiff stems. Very popular for tubs or in the garden. Hardy to 24°. Gal. \$2.00, 5-gal. priced according to size of plant.

STRELITZIA
BIRD OF PARADISE

HELLEBORUS
CHRISTMAS ROSE

CALIFORNIA NATIVES

In this section we have brought together several of the most useful of the California native shrubs. They share the desirable traits of drought resistance, hardness, and ability to get along nicely in poor soil with little care.

FREMONTIA

CEANOTHUS
MOUNTAIN HAZE

PHOTINIA ARBUTIFOLIA

CALIFORNIA LILACS

These are perhaps the most famous of all native plants, having been hybridized extensively in Europe where they are prized for the lilac-like flowers. Well adapted to wild plantings where little care is intended as on hillsides. They need good drainage and little moisture when established. We have a good selection of the best of the native species, including *Ceanothus arboreus*, the Tree Lilac; *Ceanothus cyaneus*, deepest blue, and *Ceanothus gloriosus*, the Dwarf California Lilac. In addition, we offer these two new hybrids:

Ceanothus, Mountain Haze. An excellent hedge plant which may be pruned or allowed to grow free to a 6-foot informal hedge. Dark green, year-around foliage right to the base of the plants, and a marvelous covering of soft blue flowers in April and May. Makes a beautiful untrimmed specimen plant. Gal. \$1.50, 5-gal. \$4.95.

Ceanothus, Sierra Blue. A vigorous, large, open shrub with dark green, glossy foliage and huge, lilac-like flowers of brightest blue. Reaches a height of 6 to 12 feet or more, but may be held at any size by pruning. Evergreen, stands drought, and will take more water, if necessary, than common species. Blooms in April and May, with occasional flowers through summer. Gal. \$1.50, 5-gal. \$4.95.

FLANNELBUSH

Fremontia mexicana. One of our finest native shrubs. Deeply cut woolly leaves and yellow-orange cup-shaped flowers in early spring are a glorious combination. Full sun and dry porous soil make it useful for semi-wild plantings in dry places. Hardy. Gal. \$1.50, 5-gal. \$4.50.

CALIFORNIA HOLLY, TOYON

Photinia arbutifolia. Glorious native shrubs whose beautiful dark green foliage and bright red berries have made it known to many as Christmas Berry. Does well under cultivation but is sometimes difficult to establish. Well worth any effort to get it started. Very hardy. Gal. \$1.50, 5-gal. \$4.50.

CATALINA CHERRY

Prunus lyoni (Catalina Cherry). Leaves deep green and glossy, around 5 inches long and holly-like. Makes a large shrub or small tree. Can be planted as a tall hedge. Shears well and remains a beautiful green all season. Hardy. Gal. 95c, 5-gal. \$3.50.

COFFEE BERRY

Rhamnus Californica. Large evergreen shrub with excellent growing habits. Large berries are produced in late summer which vary from yellow to deep red. Native of California foothills. Gal. \$1.25.

SUGAR BUSH

Rhus ovata. A native of our California hillsides that hides its heavy, dark branches beneath a thicket of big glossy leathery foliage. Terminal clusters of white bloom followed by dark red berries. Sun. 8 ft. Gal. \$1.50.

MATILIJIA POPPY

Romneya coulteri. Plants send up 6-foot stems, several to a plant, each clothed in attractive gray-green foliage and bearing up to 24 of the most beautiful, 5 to 6-inch crepe-textured, single white poppy-like flowers. Blooms have a golden orange center and are fragrant. Plants thrive in poorest soil and on very little water. Plant in full sun. Gal. \$1.65.

Popular EVERGREEN

The trees in this group are widely planted in California for street and shade trees, as lawn specimens or for the lovely flowers of some kinds. The year around foliage is excellent to conceal objectionable views from the house and garden. In this list you will find trees for any possible purpose. All are hardy in Southern California except at higher altitudes. Specimen sizes available at nursery.

BAUHINIA (Orchid Tree)

See Also
TREES
IN
COLOR
on page
23

ACACIAS

Acacia baileyana, Fern-Leafed Acacia. Popular small tree with feathery blue green foliage and clouds of light yellow flowers in spring. The seed pods, which follow, are light lavender purple and give a nice misty tone to the trees. 5-gal. \$3.95.

Acacia floribunda. Small round-headed tree with long narrow green leaves and fluffy little yellow flowers intermittently throughout the year. 5-gal. \$3.95.

Acacia latifolia. A large shrub or tree for hiding objectionable views outside the garden. Leaves long and narrow, polished and densely clothing the stems. Flowers golden yellow. Gal. 95c, 5-gal. \$3.95.

CAROB, CERATONIA SILIQUA

ORCHID TREE

Bauhinia purpurea, Purple Orchid Tree. A glorious small tree when in bloom. Large orchid-like flowers appear in such a mass as to conceal the foliage left before new growth starts. Also white variety. 5-gal. \$3.95.

CAPE CHESTNUT

Calodendrum capense. The medium sized, compact, rounded head of glossy green foliage is covered solidly with great 6-12 inch panicles of beautiful rosy lavender blooms in early summer. Partially loses its leaves just before flowering season in April. Likes full sun, light soil, and little water. 25-40 ft. Should be protected the first two years from temperatures below 22°. 5-gal. \$4.95.

CAROB

Ceratonia siliqua, Carob. Hardy, rounded tree with neat dark green foliage. Much planted as a street tree. Free of insects and disease. Drought resistant. 5-gal. \$3.95.

CAMPHOR

Cinnamomum camphora, Camphor Tree. Widely planted street tree with round top of light green foliage, aromatic of camphor when crushed. Trees often make a delightful tracery of lower branches. 5-gal. \$3.95.

PALMS

Cocos plumosa, Queen Palm. Beautiful feather palm with long arching leaves and tall slender smooth trunk. Popular as a street tree. Priced at nursery.

Other varieties available.

LOQUAT

Eriobotrya japonica, Loquat. Although essentially a fruit tree prized for its pear-like fruits in early summer, this round headed tree with dark green leaves is often desirable in the background planting. Long leathery leaves, woolly beneath, give a feeling of stability to the garden. 5-gal. \$3.95 up.

CAMPHOR TREE

TREES for Bloom and Shade

EVERGREEN ASH

Fraxinus uhdei, Shamel Ash. An evergreen Ash from Mexico. Makes a slender tall tree of medium size. It is always refined in habit and neat in appearance. The leaves are a foot and a half long and are composed of many green leaflets. Hardy. 5-gal. \$3.95.

EUCALYPTUS or GUM TREES

Eucalyptus citriodora, Lemon-scented Gum. Tall growing tree with graceful crown of long narrow lemon-scented leaves and picturesque white trunk. 5-gal. \$3.95.

Eucalyptus ficifolia, Scarlet Flowering Gum. Low growing dwarf flowering tree. Large pointed leaves of dark green and great clusters of crimson or scarlet flowers. One of the showiest varieties of Eucalyptus. 20" 5-gal. \$3.95.

Eucalyptus pulverulenta, Silver Dollar Eucalyptus. The dollar shaped leaves of silvery gray make very popular decorative sprays, while the short, open growing trees are easy to grow in spite of heat, drought, or poor soil. 5-gal. \$3.95.

Eucalyptus sideroxylon rosea. Slender and drooping in form, these handsome trees line their graceful branches with attractive narrow foliage and are smothered with masses of light pink bloom in summer. Equally valuable as specimens or in groups. 35 ft. Hardy. 5-gal. \$3.95.

Other standard and novelty varieties available.

SWEET SHADE TREE

Hymenosporum flavum. A choice evergreen tree, slender and of graceful habit, with glossy and fragrant yellow flowers in May and June. 5-gal. \$4.95.

JACARANDA

Jacaranda acutifolia. Handsome flowering tree with attractive light green fern-like foliage making a rounded crown. The entire tree bursts into a mass of violet-blue tubular flowers in June. Fine street or specimen tree. 5-gal. \$3.95.

MAGNOLIA

Magnolia grandiflora, Southern Magnolia. Large growing evergreen tree always neat in its glossy foliage. The immense white fragrant water-lily-like flowers appear throughout the summer. Give generous amounts of water for better blooms. 5-gal. \$3.95 up.

NEW ZEALAND CHRISTMAS TREE

Metrosideros tomentosa. (Iron Tree, New Zealand Christmas Tree). Tree with large 4-inch, lanceolate, leathery leaves. Has dark red flowers in dense clusters at the ends of the branches. To 40 feet. Gal. \$1.25, 5-gal. \$3.75.

OLIVE

Olea europaea. The gnarled, picturesque grey trunks of this tree and its wide-spreading masses of greyish green foliage are of great ornamental value. Even if we don't grow them for the fruits, an olive grove with trees 25 feet apart in even rows is attractive beyond description. Olives almost thrive on neglect once they are established. Hardy. 5-gal. \$3.95 and up.

EUCALYPTUS FICIFOLIA

CAROLINA CHERRY

Prunus caroliniana, Carolina Cherry. Dwarf round headed tree or large shrub with excellent bronze tipped green foliage and fuzzy white flowers followed by black cherries. Wonderful as street trees or in the background. 5-gal. \$3.95.

EVERGREEN PEAR

Pyrus kawakami. Makes a very fine specimen tree, with its luxuriant, glossy green leaves, and fragrant white flowers in the spring. Has no "bad season". 5-gal. \$5.95 and up.

STURDY OAKS

Quercus agrifolia, California Live Oak. One of the finest trees for the home grounds or street planting, the native Oak, with its picturesque habit and evergreen foliage is easy to grow if given care and careful watering. 5-gal. \$4.50 up.

Quercus ilex, Hollyleaf Oak. Most successful variety for local planting. Grows faster than other varieties and has more attractive foliage. Resistant to the ills that so often plague other oak varieties. 5-gal. \$4.50.

PEPPER TREE

Schinus terebinthifolia, Brazilian Pepper. Small tree with pink berries. The leaves are darker green and less feathery than the California Pepper. Very clean habit of growth. 5-gal. \$3.95.

EVERGREEN ELM

Ulmus parvifolia sempervirens. Small tree with spreading crown of slender drooping branches and bright green leaves. Rapidly becoming popular as a street and shade tree. Hardy, nearly evergreen. 5-gal. \$3.95 and up.

CALIFORNIA LIVE OAK (Quercus agrifolia)

PEPPER TREE

CONIFEROUS EVERGREENS

The coniferous evergreens all have either needle-like or scale-like leaves, and most all have cones for fruits, except Junipers and Yews which bear berries. All forms and shapes are available from low spreading Junipers, formal little Arborvitae, through medium sized shrubs to very large trees. They are a hardy lot, thriving from the mountains through the warm valleys to the sea coast.

Other Varieties and Specimen Plants Priced at Nursery

STATELY DEODAR

Cedrus deodara, Deodar. Widely planted in Southern California for its magnificent shape and light green foliage. Many are used as living Christmas Trees, for avenue planting and specimens where sufficient room is available. 5-gal. \$3.95 up.

BLUE LAWSON CYPRESS

Chamaecyparis lawsoniana allumi. Dense growing blue form. Suitable for accents in landscaping. Gal. \$1.25, 5-gal. \$3.95.

Chamaecyparis lawsoniana ellwoodii. Slow and dense growing, this is one of the finest evergreen shrubs available. It is always neat in appearance and the plummy, soft blue-green foliage is attractive the year around. Gal. \$1.50, 5-gal. \$4.50.

THE VERSATILE JUNIPERS

Spreading Types

Juniperus conferta, Shore Juniper. The attractive, light-green foliage is unaffected by sun or salt wind. It hugs the ground with arching branchlets. Gal. \$1.25, 5-gal. \$3.95.

Juniperus pfitzeriana, Pfitzer Juniper. Bushy, wide-spreading shrub with horizontal branches, ultimately 5 feet high and 6 or 7 wide. All Junipers can be restricted in growth by pruning. Useful in foundation planting when grown into a formal shrub. Gal. \$1.25, 5-gal. \$3.95.

Juniperus sabina tamariscifolia, Tamarix Juniper. Spreading close to the ground with blue-green short needles. Good in contrast to the above. More refined in habit. Useful as a low shrub for foundation planting. Gal. \$1.50, 5-gal. \$4.25.

Erect Type

Juniperus torulosa, Hollywood Juniper. An irregular growing shrub with decidedly Japanese outline. Beautiful in rock garden back-grounds or as specimens where the form and dense tufts of green foliage show to advantage. Gal. \$2.50, 5-gal. \$5.95 up.

HOLLYWOOD JUNIPER

CYPRESS

Cupressus sempervirens, Italian Cypress. Tall slender spires of deep green invaluable as accents in planting. Useful along private drive-ways. Narrow compact type grown from cuttings only. Gal. \$1.25, 5-gal. \$3.95.

PINE TREES

Pinus canariensis, Canary Island Pine. Narrow symmetrical tree with horizontal branches evenly spaced in whorls about the straight trunk. Long needles in large tufts. One of the best Pines for California. Gal. \$1.25, 5-gal. \$3.95.

Pinus halepensis, Aleppo Pine. Dense, spreading tree with short dense needles. Widely planted and thriving on neglect. Gal. \$1.25, 5-gal. \$3.95.

Pinus pinea, Italian Stone Pine. Tall growing tree with long, spreading branches, forming in older trees a broad, flat-topped head. A tree of picturesque habit. Gal. \$1.50, 5-gal. \$4.50.

Pinus radiata, Monterey Pine. Tall bushy symmetrical tree with deep green foliage. Rapid growth, succeeds anywhere in California. Gal. \$1.25, 5-gal. \$3.95.

FERN PINE (Described on page 21)

REDWOOD

Sequoia sempervirens, Redwood. More rapid growing, this cousin of the Big Tree has longer needle-like dark green leaves and the same bright reddish bark. In young trees the branches fall gracefully and fan out at lower levels. 5-gal. \$3.95.

ARBORVITAE

Thuja aurea nana, Berckmann's Golden Arborvitae. Popular dwarf golden variety. Tips of the branches bright golden yellow throughout most of the year. Hardy to cold and dry conditions. Gal. \$1.25, 5-gal. \$3.95.

Thuja beverleyensis, Golden Column Arborvitae. Tall, narrow bright golden yellow column, 15 to 20 feet high. Requires full sun to keep the color. Fine as a specimen shrub. Gal. \$1.25, 5-gal. \$3.95.

JUNIPERUS SABINA TAMARISCIFOLIA

Deciduous Flowering SHRUBS

The flowering shrubs listed in this group will lose their leaves for a short time each year. They are the hardiest of shrubs, withstanding heat and cold. In fact, their extreme hardiness makes them desirable for mountain homes. Others, because they are not so large, can be used where definite height of growth is a consideration in the garden. Many produce showy flowers, without which the garden would lack much in interest and sparkle.

THE DWARF FLOWERING ALMONDS

Amygdalus nana. Small shrubby tree with long slender branches laden in spring with delicate very double flowers like small roses. Available in pink or white. Gal. \$1.00, 5-gal. \$3.50.

BARBERRY

Berberis thunbergii atropurpurea, Red Leafed Japanese Barberry. Rich lustrous bronzy-red foliage and brilliant red berries. Dense bushy shrub best in sun. Gal. 95c, 5-gal. \$3.50.

FLOWERING DOGWOOD

Cornus florida rubra, Red Flowering Dogwood. The most spectacular with light red or pink flowers. Peat or leaf mold in the soil to insure an acid reaction. Partial shade. Grafted. 5-gal. \$6.95.

Cornus florida, white. Small tree for deep shade with attractive white-petaled flowers, satiny in texture. Both dogwoods are particularly useful at higher elevations. 5-gal. \$5.95.

HYDRANGEAS, for the Shade

Excellent shrubs for shady places where the soil can be slightly acid. Some varieties will produce blue flowers if the soil is treated to a light application of alum or iron sulphate.

French Hybrids. We offer many new French Hybrids in various colors: blue, carmine, red and pink. All large flowered, choice varieties. Gal. \$1.25, 5-gal. \$3.95.

Hydrangea hortensis. Dense 6-foot shrub with bold dark green leaves and masses of pink or blue flowers in ball-shaped clusters. The color depends on the soil and type of fertilizer used. Popular shrub for shaded places. Gal. 95c, 5-gal. \$3.50.

HYDRANGEA HORTENSIS

MAGNOLIA STELLATA

FLOWERING QUINCE

The old fashioned flowering quinces with their bright red flowers in early spring were showy in their day but never equal to the newer varieties, now available in several colors. They are much more showy, stay in bloom longer, and make fine cut flowers. Very hardy shrubs. Gal. \$1.00, 5-gal. \$3.50.

LAGERSTROEMIA INDICA RUBRA

CAPE MYRTLES

Lagerstroemia indica. Large shrubs or small trees, with showy masses of lovely crepe-like flowers in summer. They withstand heat very well, which accounts for their wide-spread popularity in the drier areas. Sun. Gal. \$1.00, 5-gal. bush \$3.50, 5-gal. standards \$4.50.

Rosea. Pink

Rubra. Red

Lavender. Lovely lavender

White. Pure white

DECIDUOUS FLOWERING SHRUBS—Concluded

COMMON SNOWBALL

Viburnum opulus sterile. This well-known hardy shrub is easy to grow in California. Abundant white globular flowers in May and June. Sun. Gal. 95c, 5-gal. \$3.50.

MAGNOLIAS

Specimen plants individually priced according to size

Magnolia liliflora, Lily Flowered Magnolia. Very rich, deep reddish purple petals, with interior surfaces white. Opens to a 5 to 6 inch flower. Blooms from March through May. 8 to 12 feet tall.

Magnolia soulangeana. The large lily-like flowers of Chinese Magnolias are becoming more esteemed each year. They come at the end of the winter before the leaves. Outstanding flowers, beautiful rose-red margined with white. Give plenty of water and a good soil.

Magnolia soulangeana nigra. Large dark purple flowers. Inside of cup-shaped flower lighter purple in color.

Magnolia stellata, Star Magnolia. Neat growing small tree or large shrub. Free flowering in spring. Flowers 3 to 4 inches across, composed of many narrow pinkish white petals.

MOCKORANGE

Philadelphus virginialis. Few shrubs give such a glorious display of flowers in early summer. Masses of large, double and semi-double pure white fragrant flowers cover the shrub for quite a long time. Hardy and reliable bloomer. Gal. 95c, 5-gal. \$3.50.

SPIRAEAS or BRIDAL WREATHS

Spiraea Anthony Waterer. Low 3-foot shrub, covered with masses of flat topped clusters of rosy-red flowers. Summer. Very hardy. Gal. 95c, 5-gal. \$3.50.

Spiraea reevesiana, Double Bridal Wreath. Hardy shrub with graceful branches, light green leaves and masses of showy white double flowers of exquisite beauty. Gal. 95c, 5-gal. \$3.50.

LILACS

Syringa persica laciniata, Cut-leaf Persian Lilac. The most reliable of all Lilacs for bloom in California. Good size clusters of real lilac flowers in spring and early summer. Blooms consistently. Gal. 95c, 5-gal. \$3.50.

French Lilacs. Grafted plants of the best varieties in the following colors: **White, lavender, purple and blue** in both single and double. Priced according to size.

WEIGELAS

Weigela Bristol Ruby (Pat. 492). Rich ruby red trumpet-shaped flowers all summer. This new Weigela is one of the best yet developed and far superior to the old Eva Rathke. Hardy. Sun. Gal. \$1.00, 5-gal. \$3.50.

Weigela rosea. Large clusters of bright pink flowers in spring and early summer. Gal. 95c, 5-gal. \$3.50.

SNOWBALL

Deciduous TREES for

TREES
IN COLOR
on page 23

FLOWERING LOCUST

Robinia decaisneana, Pink Locust. Tall rapid growing variety of Black Locust with long racemes of fragrant pink flowers. 5-gal. \$3.95.

SILVER MAPLE

Acer dasycarpum, Silver Maple. Very rapid growing large shade tree. The under side of the leaves are a silvery white, whence the name Silver Maple. Turns a rich golden yellow in fall. 5-gal. \$3.95.

CALIFORNIA ALDER

Alnus rhombifolia. One of the finest native California trees, this tall, symmetrical alder has sturdy gray trunk and limbs, and rich green leaves. Grows quickly. 5-gal. \$3.95.

WHITE BIRCHES

Betula alba, European White Birch. Popular fast growing tree with beautiful white bark marked with horizontal black lines. Light green foliage shimmers with the slightest breeze. Fine near pools or in front of dark trees. 5-gal. \$3.95 up.

Betula alba laciniata, Cut Leaf Birch. Graceful weeping branches and delicately cut leaves make this an exquisitely beautiful tree for lawn planting. Bark same as White Birch and most effective against a dark background. 5-gal. \$4.75 up.

ASH

Fraxinus velutina glabra, Modesto Ash (Montebello Ash). Fast growing shade tree of graceful habit making a dense crown of dark green foliage. Thrives equally well in warm interior valleys or at the coast. 5-gal. \$3.95.

GINKGO

Ginkgo biloba, Maidenhair Tree. Very unlike any other tree grown—this unique and interesting tree, with its fan-shaped leaves, like those of Maidenhair Fern, but larger of course, makes a beautiful specimen for lawn or street planting. Foliage turns bright yellow in fall. 5-gal. \$3.95 up.

SWEET GUM for Fall Color

Liquidambar styraciflua. Few trees will color as well in California as does the Sweet Gum. Slow growing tree with maple-like leaves useful in parkway plantings or as lawn specimens. Clean, neat, its autumnal tints of orange, red, gold and deeper shades make a display that rivals the Sugar Maple. 5-gal. \$3.95 and up.

TULIP TREE

Liriodendron tulipifera. Tall growing symmetrical tree with straight trunk and dark green leaves. Desirable shade tree. Always neat and trim. One of our finest shade trees. Flowers are similar to Magnolia, but chartreuse with orange. Cup-shaped. 5-gal. \$3.95.

FLOWERING CRABAPPLE

Malus ioensis plena, Bechtel Crab. Small tree to 15 feet. Crowded in spring with large, fragrant, double pale pink flowers. The bright green leaves which follow are neat all year. 5-gal. \$3.50 and up.

Shade and Flowers

FLOWERING PEACH TREES

Beautiful low growing trees wonderful for spring bloom before they leaf out. Large double flowers in great masses, clothe every stem. Excellent for cutting. After bloom is over prune heavily for next season's bloom. Hardy.

Any of the following \$3.50 up

Peppermint Variegated. Striped red and white. Late flowering.

Helen Borchers. One of the finest double pink varieties. And three colors **Red, Pink and White**, single-flowered, available in both early and late flowering strains.

In addition, we have some of the new flowering-fruiting peaches which do double duty in providing both ornamental flowers and fine fruits to eat. These new types priced at the nursery.

SYCAMORES and PLANE TREES

Platanus orientalis, European Sycamore. Handsome symmetrical shade tree widely planted on streets and avenues. Dense light green maple-like leaves and greenish white mottled bark on older trees. One of the best street trees for California. 5-gal. \$3.95.

Platanus racemosa, California Sycamore. Rapid growing tree, often making a clump of several trunks, much less formal. Leaves with long finger-like divisions. Mottled bark is always a pleasant variation and source of interest. 5-gal. \$3.95.

PURPLE-LEAVED PLUMS

Prunus blireiana. Brilliant red foliage later turning greenish. Flowers dainty soft pink and double line the long slender stems in spring. 5-gal. \$3.95.

Prunus pissardi. Leaves are larger and darker than blireiana, holding their dark, reddish purple all season long. Attractive white flowers in the spring. Ultimate height, 15 feet. 5-gal. \$3.95.

CHINESE ELM

ELM

Ulmus pumila, Chinese Elm. Very rapid growing, extremely hardy tree. Tolerant of most adverse soil and water conditions. Holds leaves until very late in fall. 5-gal. \$3.50 up.

PLANTING GUIDE

How to Plant Canned and Balled TREES and SHRUBS

PLANTS in cans may be removed by cutting down two sides of the can with tin snips or chisel and pulling the sides apart so that the can comes off easily. Handle so as not to break open the ball of earth.

Pots may be removed by the following method: Place four fingers against the surface of the soil, invert the pot, tap lightly against something solid and out come the contents in your hand in one solid piece.

In every case, the soil in the container should be fairly moist so that it will hold together and care should be used to keep all the earth possible on the roots.

For plants in gallons and 6-inch pots, dig a hole approximately 15 inches by 15 inches. For plants in 5-gallon or 9-inch pots, dig a hole approximately 24 by 24".

In all cases, plants should be planted in the ground at about the same level as they were in the container.

After the hole is partially filled, use water generously before filling the hole with top soil so that the water will settle the soil around the plants and eliminate all air pockets.

BALLED PLANTS should be handled by lifting the ball and not the top.

Dig a hole large enough to hold ball and permit firming the earth around it. Place plant with top of ball even with the surface of the ground. Do not remove burlap. Fill in about $\frac{1}{3}$ with soil, then cut top string and fold back corners of burlap. Fill the hole with water and, when soaked in, throw in the remainder of the soil. Firm the soil well, leave a shallow basin and fill again with water. Water again to assure thorough soaking of the ball. Do not rely on sprinklers or sprinkling system to do this until plant is well established.

Never place commercial fertilizer in the hole when planting. Small quantities of fertilizer may be applied when plants are thoroughly established and growing.

We Have Specimen Trees of Many Varieties at the Nursery

BOUGAINVILLEA, BARBARA KARST

Vines should be considered in all plantings, some for their foliage and others for their exquisite bloom. There are vines that will cling to masonry and wood without any additional support such as Parthenocissus, Ficus and English Ivy. Others are dependent on trellis work on which they will naturally twine — Cissus, Honeysuckle, Bignonia and many others. They are extremely valuable to add interest to blank walls, to provide shade on arbors and summer houses, and to cover fences and walls. Many have useful and colorful bloom. All are hardy unless indicated.

ANTIGONON LEPTOPUS (Queen's Wreath)

VINES

QUEEN'S WREATH

Antigonon leptopus, Rosa de Montana. Beautiful climber for warm sunny places. Makes a rapid growth from the ground each season, producing quantities of rose-pink flowers in summer. Dies back in winter but grows better each year. Gal. \$1.25.

EASTER LILY VINE

Beaumontia grandiflora, Easter Lily Vine. Evergreen vine for tropical effects with evergreen glossy leaves and fragrant white trumpet-shaped flowers like Easter Lilies. A wonderful, long bloomer. Plant in reasonably frost free areas. Sun or shade. Tender. 5-gal. \$3.95 up.

TRUMPET VINES

Strong, rapid growing evergreen climbing vines useful in many places for their ability to cover large areas and for the showy trumpet-shaped bloom. Will stand temperatures to about 25°.

Bignonia cherere. Perhaps the showiest of the group. Free growing vine with deep green glossy evergreen foliage and large clusters of 4-inch trumpets; bright red with yellow throat and tints of lavender on the tubes. Reliable bloom. 25°. Gal. \$1.25, 5-gal. \$3.95.

Bignonia violacea, Painted Trumpet Vine. An excellent vine for sunny or shady places. Produces quantities of delicate lavender trumpets with deeper veins. Always dainty and nice. Fine glossy, evergreen foliage. Hardy to about 19°. Gal. \$1.25, 5-gal. \$3.95.

Distictis lactiflora. Vanilla-scented Trumpet Vine. Excellent for milder regions. The trumpet-shaped flowers of rich purple cover this vine most of the year. 5-gal. \$4.50.

Tecomaria capensis, Cape Honeysuckle. Leaves are shiny deep green, always neat in appearance and very nice with the clusters of bright orange-red flowers, suggestive of honeysuckle. Hardy. Sun. Gal. 95c, 5-gal. \$3.50.

BIGNONIA VIOLACEA

BOUGAINVILLEA

No vine is more typical of California than Bougainvillea with its lavish display of color, from the dry desert regions to the seacoast, on Spanish type houses and over walls and fences. In planting be careful not to break ball of soil when removing from containers. This injury may cause them to die. We suggest cutting off the bottom of the container and planting with the side intact, allowing the metal to rust away. Otherwise they are free and rapid growers. Tender, particularly new growth.

Bougainvillea Afterglow. Quite a pleasing contrast to the older red flowered Bougainvilleas is this new one which is predominantly orange with just a touch of pink toward the center. Flowers are borne in large showy clusters. Very beautiful. Gal. \$1.50, 5-gal. \$3.95.

Bougainvillea, Barbara Karst. Compact bushy vines of medium growth being a most consistent bloomer, even when quite young. The color is slightly lighter than Crimson Lake but very pleasing. Gal. \$1.50, 5-gal. \$3.95.

Bougainvillea brasiliensis. Large showy rosy-purple flowers of a pleasing color produced in quantity most of the year, heaviest show in winter and spring. Hardest of all. Sun. 25°. Gal. \$1.50, 5-gal. \$3.95.

Bougainvillea, Crimson Lake. Rich bright deep crimson flowers most of the year. Very popular variety. Vigorous but fairly tender. Full sun. 30°. Gal. \$1.50, 5-gal. \$3.95.

Bougainvillea San Diego Red (Amerrickan). Vigorous growing vine with brick red flowers. Slow to bloom but after planting quickly makes a rapid growth and becomes very floriferous. Tender, 30°. Gal. \$1.50, 5-gal. \$3.95.

Other varieties available.

FATSHEDERA. See Foliage Plants, page 20.

EVERGREEN GRAPE

Cissus rhombifolia. Dark green leaves with three leaflets cover this strong growth evergreen vine. One of the best plants for pot culture in dark rooms or in the open. Tender, 28°. Gal. \$1.00, 5-gal. \$3.50.

CREEPING FIGS

Ficus repens. Wonderful rich green, large oval leaves. Hardy, vigorous growth. Clings closely to walls. Gal. 95c.

CAROLINA JASMINE

Gelsemium sempervirens. Beautiful evergreen twiner. Small tubular yellow flowers with an elusive fragrance and wide flaring mouths cover the vine in great abundance, starting in December and for several months. Sun. Gal. \$1.25, 5-gal. \$3.95.

IVIES

Hedera canariensis, Algerian Ivy. Large, green leaves and vigorous, rampant growth make this an excellent vine for ground cover, climbing on fences, or trained on porch posts. Gal. 95c, 5-gal. \$3.95 up.

Hedera canariensis variegata, Variegated Algerian Ivy. The green leaves are variegated with white in many interesting patterns. A nice vine to use against dark walls where the white and green make a lively combination. Gal. 95c, 5-gal. \$3.95 up.

GUINEA GOLD

Hibbertia volubilis. The vast numbers of golden yellow, 2-inch flowers added to the heavy-textured, dark green foliage of this semi-tropical vine make it one of the most popular. Hardy except in very exposed locations. Gal. \$1.25, 5-gal. \$3.95.

JASMINES

Jasminum grandiflorum, Spanish Jasmine. A slender vigorous vine with clusters of large fragrant white flowers from June to November. Very fine vine for trellises or to clamber over fences. 25°. Gal. 95c, 5-gal. \$3.50.

Jasminum magnificum. Truly a magnificent vine with large, fragrant, white flowers. Can be pruned and grown as a shrub. Leaves large and heavy. Gal. \$1.25; 5-gal. \$3.95.

Jasminum primulinum, Primrose Jasmine. Fast growing old-fashioned vine with double yellow flowers in winter. Fine for covering steep unsightly banks. Minimum of water. Sun. Gal. 95c; 5-gal. \$3.50.

CLIMBING HONEYSUCKLES

Lonicera halliana, Hall's Japanese Honeysuckle. An old favorite. Vigorous vine useful for its evergreen foliage and soil binding roots as a ground cover or on fences. Fragrant flowers white, fading to yellow. Very hardy. Gal. 85c.

Lonicera hildebrandtiana, Giant Burmese Honeysuckle. Not like the graceful honeysuckle listed above, this giant of a vine has beautiful light green leathery leaves and curious intensely fragrant flowers, with long tubes, often to 6 inches, in good sized clusters. Open yellow then assume an orange tint before they fall. Gal. \$1.75, 5-gal. \$4.50.

VIRGINIA CREEPER

Parthenocissus quinquefolia, Virginia Creeper. Large five fingered leaves turning intensely scarlet in fall. Not evergreen. Rapid climber, clinging to walls, very hardy, therefore useful in the mountains. Gal. \$1.00.

BOSTON IVY

Parthenocissus tricuspidata veitchi, Boston Ivy. Clings to any rough surface without help, covering large areas with delicate light green foliage, which in fall turns many brilliant hues of red. Very hardy and deciduous. Gal. \$1.00.

PASSION FRUIT

Passiflora edulis, Passion Fruit. Grown mostly for the fruit which is eaten fresh or made into fruit juices. The ripe fruit resembles deep purple plums. 25°. Gal. \$1.00, 5-gal. \$3.95.

Passiflora pfordti. Graceful ornamental vine with large 4 to 5-inch flowers showing white with shades of lavender or pink in the petals, deep blue corona and green flower parts. Give it a place of prominence on arbor, fence or trellis. 25°. Gal. \$1.00, 5-gal. \$3.95.

CUP OF GOLD

Solandra guttata (Copa de Oro). Large growing spectacular vine with large yellow trumpets often 6 inches across, fragrant. Foliage luxurious, deep green. Sun. 28°. Gal. \$1.25, 5-gal. \$3.95.

THUNBERGIA

Thunbergia grandiflora, Blue Sky Flower. Twining vine of rapid growth densely clothed in long pointed heart-shaped leaves. Flowers trumpet-shaped like Bignonias but in a beautiful sky blue. Prefers semi-shaded location. Gal. \$1.25, 5-gal. \$3.95.

STAR JASMINE

Trachelospermum jasminoides, Star Jasmine. Evergreen vine bearing clusters of showy white star-like flowers with lovely fragrance. One of the finest vines for shady places. Grows equally well in sun. June, particularly fragrant in the evening. Splendid foliage. Excellent in tubs. Makes a beautiful deep green ground cover. Gal. \$1.25, 5-gal. \$3.95 and up.

WISTERIAS

Deciduous vines well known in all parts of the country for their long hanging clusters of pea-shaped flowers of delicate coloring and exquisite fragrance in spring. Makes a delicate tracery of stems on arbors through the winter. Grafted plants. **Chinese Wisteria** in purple or white, \$3.95 each and up. Tree type plants also available.

CUP OF GOLD

PERENNIALS *For Seasonal Touches of Color in Your Garden*

Agapanthus umbellatus, Blue Lily of the Nile. On stout yet graceful stalks this plant bears large umbels of lovely blue lily-like flowers in great profusion in summer. 3 feet. Leaves long and narrow, in nice clumps. Also white flowered form.

Anemone japonica, Wind Flower. In any spot, sheltered from the hottest sun, these charming plants produce their 2-2½" single or double blooms above glossy foliage. **Pink and white.**

Aster frikartii, Wonder of Staffa. Bushy plants, alive with 2-inch lavender-blue asters from June to December. Rich green foliage. 2½ feet. Full sun.

Campanula isophylla. Trailing perennial for hanging baskets or rock garden. Small grey green leaves and trailing stems of saucer shaped white or blue flowers. Free flowering.

Campanula poscharskyana, Serbian Bluebell. A most charming low growing perennial, seldom over 6 inches in height, making a dense carpet of blue saucer-shaped flowers in early summer. Use it as a ground cover in light shade or as a border plant in the flower garden.

Convolvulus mauritanicus, Blue Morocco Creeper. Light grey-green creeper with quantities of pale lavender cups all summer. Excellent ground cover for sun. 6". Not weedy.

Gerbera hybrids, Transvaal Daisies. One of the finest garden and cutting flowers for California. Low tufts of leaves and long stemmed crisp, long-lasting daisies in a brilliant array of colors, pastel and bright. Sun.

Helianthemum, Sun Rose. In sunny locations, or draped over banks or low walls, these low spreading plants are quite effective. Tiny, dense foliage and small early summer flowers in profusion. Mixed colors.

Heliotrope. Old fashioned garden flowers. Very sweetly perfumed, blue to violet in late summer and fall. Light shade.

Hemerocallis, Day Lilies. Handsome clumps of foliage graced with brilliant lilies in yellow and orange shades. Essential to borders as delphinium and phlox. Easy, sun or shade.

Lavandula vera, English Lavender. Dwarf compact shrubby plant with greyish aromatic foliage and tall slender spikes of bluish-violet flowers. Very hardy. Sun.

ANEMONE JAPONICA

Many Flowering Annuals and Perennials available from flats in season.

Marguerite. We offer this popular bushy perennial in both white and yellow flowered types. Flowers, 2-inch daisies, are freely produced and long lasting. Indispensable.

Pelargoniums in variety. An amazingly wide range of shapes and colors, with the most striking contrast combinations makes our collection an ideal array to choose from.

Penstemon, Sensation. 2 to 3-foot with large showy trumpet-shaped flowers in pink, red, white or combinations. Free blooming and good for cutting. Full sun.

Phlox paniculata, Garden Phlox. Never fails to give masses of glorious color throughout the summer and fall. 2-3 ft.; sun. Red, pink, lavender, and white. Excellent for borders.

Reinwardtia trigyna, Yellow Flax. Dwarf evergreen perennial with luscious green foliage and rich yellow trumpet-shaped flowers. Sun or shade.

Salvia leucantha, Mexican Sage. Low growing with narrow pointed green leaves and spikes of rosy-violet flowers. Summer-fall.

Saxifraga crassifolia. Large round leathery leaves making an excellent show all year in shaded places. Spikes of pink flowers in fall or winter, in broad rounded clusters.

Shasta Daisy Esther Reed. Flowers peony-flowered with pompon center surrounded by longer ray petals. Lovely for cutting. White

Shasta Daisy Marconi. Fully double white flowers of immense size.

Statice perezi. Shrubby perennial with silvery leaves in a tuft at the base and large showy masses of purple-blue flowers. Sun.

Veronica spicata, Blue Candle. Above the long, narrow, medium green leaves rise tall, slender spikes of bright blue flowers that keep their color a long time, even as cut flowers. Up to 2½ feet tall and about as broad. Sun.

GROUND COVER PLANTS

In general better results are to be had by carefully grading and preparing the ground as you would for a lawn. Then set small divisions closer than generally recommended to cover the soil as quickly as possible before the soil between has a chance to wash away. This prevents the mounding effect so often seen in these lawns.

Ajuga, Carpet Bugle. One of the finest covers for shady places where a good water supply can be assured. Leaves make a close turf not over 2 inches high. Blue flowers in spring.

Ajuga, Giant Leaved. Much larger than the regular strain, the leaves and plants are fully double size. Flower stems reach 10 inches and are much more conspicuous.

Dichondra repens. Makes a very close lawn surface of tiny round green leaves. Best in sunny places where it can be given moderate watering. Becomes loose and large in shade. Needs mowing once in a while only. Easy to manage.

Algerian Ivy. Large, green leaves and vigorous, rampant growth make this an excellent vine for ground cover, climbing on fences, or trained on porch posts.

Algerian Ivy, Variegated. The green leaves are variegated with white in many interesting patterns. Nice to use against dark walls where the white and green make a lively contrast.

LAWN SEED—We offer the finest quality Lawn Seed. Our salesmen are fully qualified to suggest the type and mixture for your particular problem. See us when you plant a new lawn or wish to renovate an old one.

English Ivy. Dark green glossy leaves, makes a cover about one foot deep. Needs no mowing. Excellent on banks or level areas. Mat is too deep to walk over comfortably.

Gazania. Greyish tufts of foliage covered by quantities of golden or orange and reddish daisies on six-inch stems. Best in hot sun. Set plants 6 or 8 inches apart.

Helxine, Baby's Tears. Hardy, close creeper, making an excellent quick cover in deep shade with plenty of moisture. Tiny round St. Patrick's Day green leaves. Hardy.

Ivy Geranium. For partially shaded or sunny places. Shiny neatly shaped leaves and showy flowers in pink, red, white, lavender or purple. Makes a nice cover for banks. Trailing.

Mesembryanthemum, Ice Plant. Rapid growing waxy succulent plants making excellent covers in dry sunny places. Colorful flowers in abundance, often cover the plants and make showy effects. Available in different colors, rose-pink, red, orange and yellow.

Ornamental Strawberry, Fragaria chiloensis. Handsome glossy foliage, covered in spring with countless white flowers. Hardy and attractive, sun or partial shade.

Trailing Lantana. Creeping plant making a mat about one foot deep with showy lavender-purple flowers over a long season. Very tough and hardy. Should it freeze back it quickly recovers.

St. Augustine Grass. Makes a deep springy turf of coarse leaves. Popular because it covers ground quickly and dries very quickly after watering or rain. Hardy at both desert and seashore wherever freezing is not severe. Must be kept mowed. Flat cut into 2-inch squares and planted 3 ft. apart will cover 140 sq. ft. of lawn area.

California-Grown BERRIES and GRAPES

Prices given here are for bare root stock.

BOYSENBERRY

BOYSENBERRY

- Boysenberry.** The large berries are often 1 1/2 inches long, have excellent keeping and shipping qualities. Fine for home use in pies, jellies and preserves, or fresh with cream. 25c each, \$2.50 dozen.
- Thornless Boysenberry.** Like the old Boysenberry in quality and production of large luscious berries but without thorns. Each 35c, doz. \$3.50.

RASPBERRIES

- Cuthbert.** Large, tender, deep red fruits. 35c each, \$3.50 dozen.
- Indian Summer.** An everbearing red raspberry which easily supplants some of the older types, being equal to them in quality, and yet producing two distinct crops a year. 35c each, \$3.50 dozen.

STRAWBERRIES

- Klondyke.** Vigorous. Highly flavored berry, bright red. April to July. 60c dozen.
- Lassen.** Another University of California introduction, with the largest fruits you have ever seen. Bears very heavy crops. \$1.25 dozen.
- Rockhill.** Everbearing Bush Strawberry. Large colorful berries. No runners. Ornamental when planted in strawberry kegs. \$1.50 dozen.
- 20th Century.** Everbearing. Very large, firm all-red berry. Produces heavy crops, but requires good ground and lots of water. \$1.25 dozen.

YOUNGBERRY

- Youngberry.** Rapid growing canes bearing very large and juicy fruits of a distinctive and well-known flavor. Berries are so dark they are almost black. 25c each, \$2.50 dozen.
- Thornless Youngberry.** Same as above, except that the canes do not have thorns. 35c each, \$3.50 dozen.

GRAPES, AMERICAN

50c each, 3 for \$1.25

Eastern Concord. Favorite blue grape for jelly, juice and preserves.
Niagara. Most popular white American grape. Like the Concord but white in color and very delicious.

GRAPES, EUROPEAN

35c each, 3 for \$1.00. Ask for quantity prices.

Black Hamburg. Large round black table grape. Late September.
Black Monukka. Black, seedless. August.
Cardinal. The most desirable introduction in recent years this grape, a cross between Flame Tokay and Ribier, is revolutionizing the grape industry, largely because of the extreme earliness of the crop. Large cardinal red grapes with attractive bloom are richly colored and have a slight muscat flavor. 75c each.
Flame Tokay. Rich red. September.
Muscat. Very sweet raisin grape. White. September.
Ribier (Fresno Beauty). Large, blue-black sweet berries.
Thompson Seedless. Small sweet white. August.

VEGETABLE PLANTS

ARTICHOKE

French Green Globe. Standard variety. Large flower buds are cut and cooked. Foliage ornamental. 35c each; 3 for \$1.00.

ASPARAGUS

Paradise. Heavier crops of tastier asparagus are obtained from this new variety. Rust-resistant. 12 for 85c; 25 for \$1.50.

RHUBARB

Cherry. Large bright red stalks of fine flavor. 35c each; 3 for \$1.00.

BRADSON Garden Hose Sprayers

WATER DOES THE WORK

So easy! Used like a nozzle on hose, handle any material you mix with water to apply, liquid or powder, without clogging. Do a better job. Clean in 30 seconds. Fully guaranteed.

For
Insecticides, Fungicides, Weed Killers:
Bradson Sprayers thoroughly drench plants with a soft, misty spray of insecticide or fungicide. They get more on both sides of leaves, on more of the plant, so more pests are killed.

A. Insect-O-Gun — Pint mason jar holds enough to make 3 gal. proper spray (for 6 gal. replace with quart jar). Bradson water valve stays on when turned on, off when turned off. Deluxe pistol grip model. **\$5.95**

B. Gard-N-Gun — 1½ gal. capacity. Has Bradson water valve. **\$2.95**

C. Bug-Gun — 1½ gal. capacity. Easy one-finger control. **\$1.95**

For volume application: fertilizer, plant food, lawn moth treatment, etc.

D. Gro-Gun — 20 gal. capacity; for 40 gal. replace quart mason jar with ½ gal. Fertilize average lawn in 15 minutes! One-finger control. Also ideal for spraying insecticides, etc., on trees, many other uses. **\$2.95**

HAYES

GARDEN HOSE spray guns

IT'S EASY to kill garden insects when you use the Hayes. Just pour specified amount of undiluted insecticide into jar. Then fill jar with water, attach hose, turn on faucet and spray. Water passing through hose combines with spray material drawn up through suction tube in proper proportion to make an effective spray that rids your plants of insects. Sprays UP—DOWN—SIDEWAYS —TO TREE TOPS. Positive on-and-off new cam type control valve.

HAYES 3 makes three gallons of spray solution. Thumb-touch control orifice. Ideal for small gardens. \$4.95

HAYES 4 makes four gallons of spray. \$6.45

HAYES 6 makes six gallons of spray. Longer nozzle reaches to inside of plants and low-lying leaves. \$9.95

HAYES 10 makes ten gallons of spray. Same design as Hayes 6; for estates, parks, industrial use and agriculture including dairies, poultry and livestock. \$12.95

SNAROL—EFFECTIVE SNAIL CONTROL: Snarol (Meal or Pellets) is a specially prepared bait for the control of snails and slugs. Equally effective, both types of Snarol contain metaldehyde which dooms any snail on contact. Convenient Snarol Pellets can be broadcast freely in ivy, and other heavy ground foliage because their weight carries them through to the ground where snails thrive. A pound of Snarol Pellets is sufficient to treat about 1200 sq. ft. of surface area.

Antrol Ant & Roach Bomb 12 Oz. \$1.39

We Handle a Complete Line of Garden Supplies

REEVES APRICOT (Pat. 693)

APRICOTS

Few fruits give as satisfactory returns to the home gardener as do the apricots. Small trees bearing enormous crops in early summer.

Reeves (Plant Pat. No. 693). Large round orange yellow fruits with a delightful rosy blush, very fine full flavored flesh; thoroughly adapted to Southern California climate, an ideal home apricot. Ripens early June. \$2.50 each.

Royal. Large well formed attractive fruit. The flesh is delicious and deep orange in color. Sweet. One of our best varieties and a favorite for home planting. June.

NECTARINE

Deciduous

ALMONDS

For frost-free areas with hot summer temperatures. Almonds produce one of California's important crops. They need different varieties to give pollen to the better varieties for better crops.

Ne Plus Ultra. Popular kind with large soft shelled nuts. Pollinates Nonpareil.

Nonpareil. Is the leading commercial variety. Popular for its paper thin shells.

APPLES

Beverly Hills. Originated right in Beverly Hills at the University of California, this red and yellow striped variety is really meant for Southern California. Needs no winter freezing weather. Ripens in August.

White Permain. A well-known, medium to large, oblong, greenish-yellow apple; juicy and mildly flavored. One of the best for Southern California, bearing consistently. Fruit keeps well and is fine for cooking and eating. November.

Winter Banana. Medium to large; golden yellow, usually shaded crimson; flesh fine grained with very rich, sub acid flavor, tree healthy and vigorous for local planting. For better pollinization plant with other fall apples. August.

Yellow Delicious. Large, golden yellow, crisp, firm and delicious. A fine apple for all purposes. Yellow Delicious is a good pollinizer. September.

Other varieties of apples available.

CRABAPPLE

Transcendent. Good size, August ripening. Yellow fruits blushed red. The best variety for California.

KIM ELBERTA PEACH

CHERRIES

Bing. Large heart-shaped sweet fruits. Glossy skin. Firm flesh, almost black. Fine canning variety. June.

Black Tartarian. Sweet juicy purplish black cherry. Heavy bearing, large tree. Pollinizes other sweet cherries.

English Morello. One of the best home varieties. Small round headed tree with dark red fruits, almost black when ripe.

Other Varieties May Be Available. Please Ask if You Do Not See What You Want.

Fruit Trees

FIGS

- **Brown Turkey.** Large, long rich purplish-brown fig. Strawberry red flesh is sweet and juicy. Prune heavily.
- **Kadota.** All-purpose white fig—drying, pickling or eating fresh. Medium pale yellow skin, sweet amber flesh.
- **Mission, California Black Fig.** Medium size to large long necked deep violet-black figs with brownish-red flesh. Prune lightly. Does well in all sections.

NECTARINES

- **Goldmine.** Juicy white flesh. Large red and yellow fruits of fine flavor. Early August.
- **Pioneer** (Plant Pat. No. 787). Large, highly colored yellow fleshed clingstone of excellent eating quality. Outstanding for Southern California plantings. July.
- **Silver Lode** (Pat. 1023). A new red cheeked white flesh nectarine, for Southern California. Juicy and of richest nectarine flavor, produces large crops year after year. Ripens in July. \$2.50 each.

BROWN TURKEY FIG

PEACHES (Freestone)

- **Babcock.** Very popular. Consistent bearer, even after mild winters. Smooth red cheeks and delicious white flesh. June.
- **Bonita.** An improved J. H. Hale.
- **Fay Elberta.** Oval peaches of good size. Yellow with red cheeks. Yellow flesh of excellent flavor. Early July.
- **Kim Elberta, Early.** Large yellow freestone ripening early in June. Like the Elberta except for early ripening.
- **Millers Late.** Heavy bearing yellow peach of fine quality. November.
- **Rio Oso Gem.** Similar to J. H. Hale. Large crimson fruits with delicious yellow flesh.

PEACHES (Clingstone)

- **Sims Cling.** Medium size golden yellow fruits with yellow flesh. One of the leading orchard varieties. Late August.

PEARS

- **Bartlett.** Summer and winter varieties available. Fine keeping pear. Fruits small and sweet. Good eating.
- **Beurre de Anjou.** Good size russet yellow pear with crimson blush. A good eating pear ripening in October.
- **Winter Nelis.** Small delightfully flavored fruits. Excellent along the coast. December. Good bearer and pollinizer.

PLUMS

- **Howard Miracle** (Pat. 721). The finest. It rivals a peach in size, yet the seed is amazingly small (see illustration). Firm, amber flesh of the most superb flavor. August. \$2.00 each.
- **Santa Rosa.** Popular variety with oval fruits, maroon skin and amber flesh veined with crimson. Delicious. Late June.
- **Satsuma.** Deep blood red fruits in quantity. August.

Other Varieties Available

HOWARD MIRACLE
PLUM (Pat. 721)

PERSIMMON

- **Hachiya.** The best and most popular variety. Large cone-shaped, bright orange-red fruit with sweet, rich, soft flesh. Puckery only when not completely ripe.

POMEGRANATE

- **Wonderful.** Attractive large shrubs with red flowers and attractive odd shaped fruits. Easy to grow, doing very well in dry hot places.

PRUNES

- **Sugar.** Fruits large and sweet. Purple. August.
- **Standard.** Large oval fruits delectable in appearance with their deep purple color and rich blue bloom and tasty, too, when you get into that amber flesh, juicy and rich in flavor. Ripens in August.

WALNUTS

- **Payne.** One of the hardiest walnuts for California. Popular with everyone because the nuts are of high quality and the sturdy trees begin to fruit and bear heavy crops while young.

VALENCIA ORANGE

CITRUS FRUITS

ORANGES

Washington Navel. The famous winter ripening orange. Large fruits easily peeled and broken into segments. Thrives best a few miles from the coast. Can be grown any place in California where citrus is grown. December to May.

Valencia Orange. Best summer orange, ripens from April to December after the Navel season is over. Thus, ripe oranges can be had through the summer and fall. Juicy, sweet and few seeded.

LEMONS

Eureka. The leading lemon for commercial and home planting. Fruit uniformly medium size, juicy, and few seeded. Most of the fruit is ripened during the summer but bears throughout the year.

Meyer Lemon. Semi-dwarf. Fruit large, oval and deeply orange yellow in color. Hardy throughout most of California. Laden with fruit most of the year.

AVOCADO, RYAN

CITRUS and AVOCADOS

Prices Subject to Market Conditions

LIMES

Bearss Seedless. Finest and largest of all limes. Seedless, juicy fruits ripen mostly during the summer, when limes are in demand. Large, vigorous and almost thornless.

KUMQUAT

Nagami. Semi-dwarf tree giving abundant crops of small egg-shaped golden orange fruits most of the year. Hardy and very ornamental.

TANGELO

Sampson. Golden yellow fruits with delicious orange-red juice combining the flavor of tangerine with grapefruit. February to May.

GRAPEFRUIT

Marsh Seedless. Compact growing variety widely planted in California. Fruit juicy, seedless, very good. May-August.

TANGERINE (Mandarin Oranges)

Algerian. Very early ripening tangerine. Fruits very sweet and fine flavored, medium size. One of the best to plant in the home orchard.

Dancy. Medium to large flattened fruits. Very juicy and of fine flavor. February to May.

Satsuma. One of the hardiest oranges. Fruits ripen very early, usually before Christmas (October). Large, flat, loose-skinned, deep orange in color.

AVOCADOS

Fuerte. Popular winter avocado. Pear-shaped fruits with very delicious flesh. Heavy bearing and frost resistant. October-May.

Haas. The very surest summer-fruiting variety. Black-skinned, ripens over long season, from May to October.

MacArthur. Green, pear-shaped, medium size fruits maturing during the summer.

Mexicola. Small purplish-black fruit, oval in shape and shiny. The flesh is of excellent quality. August-September.

Nabal. Smooth skin, small seed, large green fruit, round in shape, fruit weighing as much as 20 ounces. Delicious taste. Leading commercial variety. Ripens from June to September.

Rincon. Fuerte type fruits and maturity, but superior to Fuerte for coastal regions.

Ryan. The summer Fuerte ripening from May to October, thus extending the Fuerte season. A thrifty spreading tree bearing consistently year after year. Fruit like the Fuerte in quality.

MEYER LEMON

LOQUAT

The Loquat is hardier than most other subtropical trees. The fruit ripens in April and May. Its sprightly aromatic flavor is widely enjoyed. The fruits are pear-shaped, yellow to orange, and of white flesh. Because of its broad, shiny foliage the Loquat makes a splendid ornamental with its small, spreading branches. (See also under Popular Evergreen Trees.)

OUR GUARANTEE—We guarantee all our nursery stock to be true to name, and every plant to be alive when it reaches your hands. If you are not pleased with the appearance of the stock, return it to us at once, before planting, and we will replace it or refund your money. However, after the plants leave our nursery, weather, soil and care govern their life and condition; therefore, we will not be responsible for continued life of the plant, or for the crop. Our liability, in all instances, is limited to the purchase price of the nursery stock.
